

## Facility Demolitions/Renovations Project Environmental Compliance Checklist

Project Name: \_\_\_\_\_

Project Description: \_\_\_\_\_

Primary Contact for Project (Project Manager/Supervisor): \_\_\_\_\_

Phone number: \_\_\_\_\_ Department: \_\_\_\_\_

The purpose of this checklist is to identify potential environmental compliance requirements early in the project life cycle. It is intended for university project managers, project coordinators, and professional services contractors that perform activities on the campus. It is understood that not all projects involve every individual listed. It is important to complete this checklist early, as some environmental requirements require significant lead-time to resolve.

**Please check Yes or No in response to the following questions:**

Facility Demolitions/Renovations		YES	NO
1.	Will any refrigeration/air conditioning units be removed/disposed?	<input type="checkbox"/>	<input type="checkbox"/>
2.	Will there be any discharge to storm or sanitary sewer drains?	<input type="checkbox"/>	<input type="checkbox"/>
3.	Will the project install a fossil fuel burning unit with a stack (e.g. Boiler, emergency generator, heat exchanger, kiln, etc.)?	<input type="checkbox"/>	<input type="checkbox"/>
4.	Will demolition be conducted as open burning fire fighting training exercise?	<input type="checkbox"/>	<input type="checkbox"/>
5.	Will any waste need to be transported off-site for reuse, recycle or disposal?	<input type="checkbox"/>	<input type="checkbox"/>
