

WKU has been like a second home to me. I'm so happy I came here, and it is the best school in the state.

Blake

Why WKU?

Whenever I was about 3 to 5 years old, I would wake up and hear the bells. It was so beautiful in the morning, and it never got old. I knew then that I had to see where the bells came from. After I found out that it was here at WKU, I was destined to come here as a student. WKU is so beautiful, and the people here are so nice. I would never leave this place.

Alex
Why WKU?

When I was younger, I didn't think about going to college. I got told it was the right thing to do but really didn't get the support or encouragement from people I thought I would. If I weren't continuing my education at WKU, I don't think I would even be in college right now.
