

Scenarios for Degree Completion

- Currently, **90%** of WKU Chinese majors study abroad with the aid of scholarships, including Confucius Institute scholarship covering almost all the expenses in China, and other internal and external grants to defray traveling expenses.
- A major in Chinese requires students to take another major or minor. The Chinese major is **36** hours and the minor is **30** hours, both starting with CHIN102. We are committed to collaborating with other programs and advisors to ensure students' success at and beyond WKU.
