SCHOLAR

THE SPIRIT OF RESEARCH AND CREATIVITY AT WESTERN KENTUCKY UNIVERSITY

2 All That Jazz

by Michael J. Sobiech

Dr. Marshall Scott's passion for the trumpet is essential for his work of cultivating young musicians and music teachers.

5 Green Research

by Katherine Pennavaria

For Dr. Yan Cao, carbon emissions are the energy problem of today.

8 Dialect is not Deficiency

by Jeanne Sokolowski

Dr. Elizabeth Winkler is an expert on creole languages, some of which are spoken in areas of the United States.

12 A Star is Born: Una Merkel

by Amy J. W. Slowik

Sean Kinder hopes that his upcoming book on actress Una Merkel will bring this native Kentuckian back into the limelight where she belongs.

17 Can Dung Beetles Save the World?

by Michael J. Sobiech

While on a post-doctoral fellowship in South Africa, Keith Philips decided to focus on nature's fertilizer—the dung beetle.

21 Microscopic Research Focus, Expansive Research Vision

by Jeanne Sokolowski

Dr. Rodney King researches how bacterial viruses exploit the molecular machinery of their host to express their own genes.

26 Cattle Business

by Katherine Pennavaria

Cows have no idea how much former Agriculture Department head Dr. Jenks Britt thinks about them.

28 Protecting our Waters and Human Health

by Amy J. W. Slowik

Dr. Vijay Golla studies the controversial use of atrazine in the United States and its effects on human health.

31 WKU Students win awards at Kentucky Academy of Science meeting
