**University College
School of Professional Studies
Proposal to Revise Course Catalog Listing
(Information Item)**

Contact Person: Jeff Butterfield, jeff.butterfield@wku.edu 5-8973

1. Identification of course:

- 1.1 Course prefix (subject area) and number: IDST 369
- 1.2 Course title: Career Related Field Experience

2. Current course catalog listing:

IDST 369. CAREER RELATED FIELD EXPERIENCE. (1-3) Prerequisites: Junior or senior standing with a declared major. Instructor permission is required. Work arrangements approved through the Center for Career and Professional Development with instructor consultation. Supervised work experience related to a student's field of study or career goals within a cooperating business, industry, or agency. Students should work directly with the Center for Career and Professional Development and course instructor to identify goals, secure appropriate work experience, and review course requirements. Students are responsible for all internship-related transportation and travel. Students may repeat twice for a maximum of three total hours.

3. Proposed course catalog listing:

IDST 369. CAREER RELATED FIELD EXPERIENCE. (1-3) Prerequisites: Junior or senior standing with a declared major. Instructor permission is required. Supervised work experience related to a student's field of study or career goals with a cooperating business, industry, or agency. Course will include career-related learning activities and projects. Students are responsible for all internship-related transportation and travel. Students may repeat twice for a maximum of three total hours.

4. Rationale for revision of the course catalog listing:

Staff members of the Career Center administered IDST 369 prior to 2014. This was due to the limited number of students taking the course. Since 2014, IDST 369 has been taught by full-time faculty members. The old catalog description directed students to the Career Office, which has been confusing and problematic. The proposed change strikes the references to the Career Office.

5. Proposed term for implementation: Fall 2017

6. Dates of prior committee approvals:

Department/ Unit School of Professional Studies
University College Curriculum Committee
Professional Education Council (if applicable)
General Education Committee (if applicable)
Undergraduate Curriculum Committee

Proposal to Revise Course Prerequisites/Corequisites
(Information Item)**

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

- 1. Identification of course:**
 - 1.1 Course prefix and number: BCOM 366
 - 1.2 Course title: Video Editing, Aesthetics and Techniques
- 2. Current prerequisites:** BCOM 266 or both FILM 101 and 201
- 3. Proposed prerequisites:** BCOM 266 or FILM 201
- 4. Rationale for the revision of prerequisites:** Since FILM 101 has been moved to a 200-level course; it will no longer be required prior to BCOM 366 and may be taken concurrently. Historically, Video Editing only required FILM 201 of film majors, so this is a return to its prior pre-req.
- 5. Effect on completion of major/minor sequence:** With BCOM 366 or FILM 201 as the sole pre-reqs, this will make registering for FILM 250 much simpler for majors and minors. Since FILM 101 was never required for the Film Studies minor, its removal from the pre-reqs means that exemptions for those students will no longer have to be made.
- 6. Proposed term for implementation:** Fall 2017
- 7. Dates of prior committee approvals:**

- 1. Identification of course:**
 - 1.1 Course prefix (subject area) and number: FILM 250
 - 1.2 Course title: Screenwriting
- 2. Current prerequisites:** FILM 101 and 201; or BCOM 325
- 3. Proposed prerequisites:** FILM 201 or BCOM 325
- 4. Rationale for the revision of prerequisites:** Since FILM 101 has been moved to a 200-level course, it will no longer be required prior to FILM 250 and may be taken concurrently. Historically, Screenwriting only required FILM 201, so this is a return to its prior pre-req.
- 5. Effect on completion of major/minor sequence:** With FILM 201 or BCOM 325 as the sole pre-reqs, this will make registering for FILM 250 much simpler for majors and minors. Since FILM 101 was never required for the Film Studies minor, its removal from the pre-reqs means that overrides for those students will no longer have to be made.

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

- 1. Identification of course:**
 - 1.1 Course prefix (subject area) and number: FILM 377
 - 1.2 Course title: Film Sound
- 2. Current prerequisites:** BCOM 366
- 3. Proposed prerequisites:** FILM 282 and BCOM 366
- 4. Rationale for the revision of prerequisites/corequisites/special requirements:** Since FILM 377 is an advanced production elective, having hands-on experience in actual film production will be beneficial to students' success. FILM 282 offers students the chance to work on several student film productions during the course of the semester. With FILM 282 as a pre-req, FILM 377 instructors can build on this basic experience with advanced concepts and instruction.
- 5. Effect on completion of major/minor sequence:** Since FILM 282 is a lower-division required course and FILM 377 is an upper-division elective, student's should already be taking FILM 282 early in their college career. This change will have no impact on the completion date of their major.
- 6. Proposed term for implementation:** Fall 2017
- 7. Dates of prior committee approvals:**

**Potter College of Arts & Letters
School of Journalism & Broadcasting
Proposal to Revise Course Title
(Information Item)**

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

7. Identification of proposed course:

- 1.1 Course prefix (subject area) and number: FILM 382
- 1.2 Course title: Intermediate Film Production Workshop
- 1.3 Credit Hours: 3

2. Proposed course title: Film Production Workshop II

3. Proposed abbreviated course title: Film Workshop II
(maximum of 30 characters/spaces)

4. Rationale for the revision of course title: The original FILM 282, 382, and 482 courses were created piecemeal, but by giving them a consistent name and sequential numbering (I, II, III) it unifies them as a progressive whole.

5. Proposed term for implementation: Fall 2017

6. Dates of prior committee approvals:

- 3. Proposed abbreviated course title:** Film Workshop III
(maximum of 30 characters/spaces)
- 4. Rationale for the revision of course title:** The original FILM 282, 382, and 482 courses were created piecemeal, but by giving them a consistent name and sequential numbering (I, II, III) it unifies them as a progressive whole.
- 5. Proposed term for implementation:** Fall 2017
- 6. Dates of prior committee approvals:**

Film Faculty	12/7/16
School of Journalism & Broadcasting	1/23/17
PCAL Curriculum Committee	2 Feb 2017
Undergraduate Curriculum Committee	02/23/2017
University Senate

Proposal to Revise Course Prerequisites/Corequisites
(Information Item)**

Contact: Jeffrey Budziak, jeffrey.budziak@wku.edu, 745-6391

1. **Identification of course:**
 - 1.1 Course prefix (subject area) and number: PS 403
 - 1.2 Course title: Field Studies in Politics
2. **Current prerequisites:** PS 110 and permission of the instructor.
3. **Proposed prerequisites:** None
4. **Rationale for the revision of prerequisites:** We are removing this prerequisite because we believe the course can be completed successfully without taking the previously identified class. Retaining the prerequisite does not further student success in the course but only limits the variety of students who can enroll.
5. **Effect on completion of major/minor sequence:** None.
6. **Proposed term for implementation:** Fall 2017
7. **Dates of prior committee approvals:**

Proposal Date: January 16, 2017

**Potter College of Arts & Letters
Department of Political Science
Proposal to Revise Course Grade Type
(Information Item)**

Contact: Scott Lasley, scott.lasley@wku.edu, 745-2799

1. Identification of proposed course

1.1 Course prefix (subject area) and number: PS 499

1.2 Course title: Senior Seminar in Government

2. Current course grade type: Pass/Fail

3. Proposed course grade type: Standard Letter Grade

4. Rationale for revision of course grade type: The senior seminar course was established when it was a one credit course. Several years ago the course was modified to be a three-credit course, but the grading option was not changed at the time. This proposed change to standard letter grading will bring the course in to line with other three credit courses in the department and better reflect student performance.

5. Proposed term for implementation:

Fall 2017

6. Dates of prior committee approvals

**Potter College of Arts & Letters
Department of Sociology
Proposal to Revise Course Prerequisites/Corequisites
(Information Item)**

Contact: Amy Krull; Amy.Krull@wku.edu; 56363

1. Identification of course:

- 1.1 Course prefix (subject area) and number: SOCL 210
- 1.2 Course title: InterConsent of Self and Society

2. Current prerequisites:

SOCL 100 or Information of instructor

3. Proposed prerequisites:

None

4. Rationale for the revision of prerequisites:

Introduction to Sociology (SOCL 100) is unnecessary for success in the course. Removing this prerequisite would also open enrollment to a wider variety of students without negatively impacting their ability to complete the course.

5. Effect on completion of major/minor sequence:

None

6. Proposed term for implementation:

Fall 2017

7. Dates of prior committee approvals:

School of Journalism & Broadcasting
Proposal to Make Multiple Revisions to a Course
(Consent Item)**

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

- 1. Identification of course:**
 - 1.1 Current course prefix (subject area) and number: FILM 101
 - 1.2 Course title: Basic Film Production

- 2. Revise course title: N/A**

- 3. Revise course number:**
 - 3.1 Current course number: FILM 101
 - 3.2 Proposed course number: FILM 202
 - 3.3 Rationale for revision of course number: Course material is more appropriate for students who have taken at least six hours of film courses. Over past three years of offering class, most successful students have been in their second semester, if not their second year. Introductory material will be provided in new pre-requisites. (See Section 4)

- 4. Revise course prerequisites requirements:**
 - 4.1 Current prerequisites: None
 - 4.2 Proposed prerequisites: FILM 100, FILM 201
 - 4.3 Rationale for revision of course prerequisites: FILM 100 and FILM 201 will introduce key concepts about filmmaking and film production in a lecture setting that will be built upon in FILM 202 in a hands-on, lab setting.
 - 4.4 Effect on completion of major/minor sequence: Since students will have to take FILM 100 and FILM 201 prior to taking 202, then students will have to wait until at least their second semester to take the course. Since other required FILM courses can be taken concurrently with 202, this change should have minimum impact overall.

- 5. Revise course catalog listing: N/A**

- 6. Revise course credit hours:**
 - 6.1 Current course credit hours: 0-3
 - 6.2 Proposed course credit hours: 3 (Non-Variable Credit)
 - 6.3 Rationale for revision of course credit hours: Course should be 3 credits, non-variable. Current catalog lists the course as 0-3 credits, which is misleading. Course has a lab, but is included as part of the 3 credit course.

- 7. Revise grade type: N/A**

8. Proposed term for implementation: Winter 2018

9. Dates of prior committee approvals:

Proposal to Make Multiple Revisions to a Course
(Consent Item)

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

- 1. Identification of course:**
 - 1.1 Current course prefix (subject area) and number: FILM 282
 - 1.2 Course title: Film Production Workshop I
- 2. Revise course title: N/A**
- 3. Revise course number: N/A**
- 4. Revise course prerequisites requirements:**
 - 4.1 Current prerequisites: FILM 101 and FILM 201
 - 4.2 Proposed prerequisites: FILM 202
 - 4.3 Rationale for revision of course prerequisites: FILM 202 (formerly 101) Basic Film Production prepares students to work on a film set, which is what they will be doing in FILM 282. Since FILM 201 is now a pre-req for FILM 202, its inclusion as a pre-req for FILM 282 would be redundant.
 - 4.4 Effect on completion of major/minor sequence: Since other required film courses can be taken concurrently with FILM 282, there should be no impact on students' ability to complete major.
- 5. Revise course catalog listing:**
 - 5.1 Current course catalog listing: Intensive, hands-on workshop in the production of short-form cinema. Specific focus of study to be determined in consultation with instructor. Emphasis on techniques and strategies relevant to producing independent film and video. May be repeated three times for additional credit.
 - 5.2 Proposed course catalog listing: Intensive, hands-on workshop in the production of short-form cinema. Specific focus of study to be determined in consultation with instructor. Emphasis on techniques and strategies relevant to producing independent film and video.
 - 5.3 Rationale for revision of course catalog listing: The course was originally conceived as a repeatable course, but, in practice, students would be better served moving on to more advanced classes, like FILM 382, rather than repeating the same course.
- 6. Revise course credit hours:**
 - 6.1 Current course credit hours: 3 (Repeatable 3 times for additional credit)
 - 6.2 Proposed course credit hours: 3 (Non-Repeatable)
 - 6.3 Rationale for revision of course credit hours: The course as originally conceived as a repeatable course, but, in practice, students would be better served moving on to more advanced classes, like FILM 382, rather than repeating the same course.

- 7. **Revise grade type:** N/A

Proposal to Make Multiple Revisions to a Course
(Consent Item)**

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

- 1. Identification of course:**
 - 1.1 Current course prefix (subject area) and number: FILM 376
 - 1.2 Course title: Cinematography

- 2. Revise course title: N/A**

- 3. Revise course number: N/A**

- 4. Revise course prerequisites requirements:**
 - 4.1 Current prerequisites: BCOM 366
 - 4.2 Proposed prerequisites: FILM 282 and BCOM 366
 - 4.3 Rationale for revision of course prerequisites: Since FILM 376 is an advanced production elective, having hands-on experience in actual film production will be beneficial to students' success. FILM 282 offers students the chance to work on several student film productions during the course of the semester. With FILM 282 as a pre-req, FILM 376 instructors can build on this basic experience with advanced concepts and instruction.
 - 4.4 Effect on completion of major/minor sequence: Since FILM 282 is a lower-division required course and FILM 376 is an upper-division elective, students should already be taking FILM 282 early in their college career. This change will have no impact the completion date of their major.

- 5. Revise course catalog listing:**
 - 5.1 Current course catalog listing: A concentrated study in the fundamentals of cinematography: capture/presentation formats, lighting, camera, exposure, composition, and color grading. Emphasis on visual storytelling through short filmed projects. Lecture and lab.
 - 5.2 Proposed course catalog listing: A concentrated study in the fundamentals of cinematography: capture/presentation formats, lighting, camera, exposure, composition, and color grading. Emphasis on visual storytelling through short filmed projects.
 - 5.3 Rationale for revision of course catalog listing: Since students now have easy access to filmmaking equipment, material covered in the lab component has been redistributed to outside-of-class projects.

- 6. Revise course credit hours:**
 - 6.1 Current course credit hours: 0-3
 - 6.2 Proposed course credit hours: 3 (Non-Variable Credit)

6.3 Rationale for revision of course credit hours: Course should be 3 credits, non-variable. Current catalog lists the course as 0-3 credits, which is misleading.

Potter College of Arts & Letters
School of Journalism & Broadcasting
Proposal to Create a New Course
(Consent Item)

Contact: Travis Newton, travis.newton@wku.edu, 270-745-5890

1. Identification of proposed course:

- 1.1 Course prefix (subject area) and number: FILM 100
- 1.2 Course title: Film Industry and Aesthetics
- 1.3 Abbreviated course title: Film Industry and Aesthetics
(maximum of 30 characters or spaces)
- 1.4 Credit hours: 3 Variable credit (no)
- 1.5 Grade type: Standard
- 1.6 Prerequisites/corequisites: Restricted to film majors.
- 1.7 Course description: Introduction to the film industry and aesthetics of cinematic visual storytelling, considered from both studio and independent practitioners' perspectives.

2. Rationale:

- 2.1 Reason for developing the proposed course: Many incoming film majors have little awareness of how the film industry works, from basic concepts like potential film industry jobs and careers to more advanced concepts like how films are ushered from concept to distribution. This course will introduce them to the mechanisms and structures of the film industry at both the studio (i.e. Hollywood) and independent level, deepening their view of the industry from that of an outsider to a practitioner. Many students also begin our program with no formal training in composition or the elements of cinematic visual storytelling. While some have innate talent in this area, many struggle throughout their college career with the elements of composition and other basic elements of filmmaking, like exposure and contrast ratios. This course will give students a common language and base-level of knowledge that will be utilized in production courses throughout the film major.
- 2.2 Projected enrollment in the proposed course: 30 per semester based on an average incoming freshman class of 60, divided across fall and spring semesters.
- 2.3 Relationship of the proposed course to courses now offered by the department: Course will serve as pre-req to proposed FILM 202 (old FILM 101). Many concepts introduced in FILM 100 will be built on in FILM 202 and other film production courses. This course will also complement the introduction to style and aesthetics of cinema in FILM 201, and is designed to be taken in the same semester. SJB 101 covers a wide range of mass media topics, but does not focus specifically on the film industry.
- 2.4 Relationship of the proposed course to courses offered in other departments: While other departments offer introductory courses to acquaint students to their area of study, HMD 171 Introduction to Management in the Hospitality Industry

- or IDFM 132 Perspective of Dress, for example, none focus specifically on the film industry. While composition and design is an essential tool of all visual arts, this course will teach visual storytelling techniques from a cinematic perspective.
- 2.5 Relationship of the proposed course to courses offered in other institutions: Most universities, including our benchmarks, offer courses in video/media production. However, few of our benchmarks (BGSU, Ohio, Southern Mississippi, and Towson) offer film majors. Bowling Green State University offers the following course, which is closest to our proposed course: THFM 1710 - Applied Aesthetics for the Moving Image. From the course description: “This course serves as an introduction to moving image aesthetics, tools, and techniques through the creation of original moving image work with an emphasis on achieving basic aesthetic and technical literacy.” The course covers similar material in regards to visual cinematic storytelling and uses the same textbook, *Visual Story* by Bruce Block. This is a foundational required course for students in the Film Production major.

3. Discussion of proposed course:

- 3.1 Schedule type: L - Lecture
- 3.2 Learning Outcomes: Students should be able to:
- Demonstrate an understanding of the structures and means of production in studio (Hollywood) film production.
 - Demonstrate an understanding of the structures and means of production in independent film production.
 - Describe the roles of key above-the-line personnel on a film crew, including producer, director, cinematographer, production designer, editor.
 - Describe the roles of key below-the-line personnel on a film crew, including electrician, grip, sound mixer, camera assistant, script supervisor, assistant director.
 - Demonstrate basic technical proficiencies in framing, continuity, and exposure.
 - Implement basic techniques of cinematic visual storytelling: space, line and shape, color movement, rhythm, visual structure.
- 3.3 Content outline: Industry Overview, Phases of Production, Above-the-Line, Below-the-Line, Set Etiquette, Shot Size/Framing, Continuity, Contrast Ratios, Elements of Exposure, Visual Composition: Space, Line and Shape, Color, Movement, Rhythm, Visual Structure
- 3.4 Student expectations and requirements: Students will be expected to complete readings and exams over course material. Individual Exercises will serve to evaluate students’ application of course material in hands-on setting.
- 3.5 Tentative texts and course materials: Levy, Frederick *Hollywood 101: The Film Industry*. 1st Edition. New York, St. Martin’s Press, 2000. Print.
Squire, Jason E. *The Movie Business Book*. 4th Edition. New York: Routledge, 2016. Print.
Block, Bruce. *The Visual Story*. 2nd Edition. Burlington: Focal Press, 2013. Print.

4. Resources:

- 4.1 Library resources: Library resources are sufficient.
- 4.2 Computer resources: Current computer resources are adequate for this course.

5. Budget implications:

- 5.1 Proposed method of staffing: Current staffing is sufficient.
- 5.2 Special equipment needed: Students will need access to DSLR cameras, which many film students already own. The School of Journalism & Broadcasting has cameras available for checkout for students who do not own them.
- 5.3 Expendable materials needed: None
- 5.4 Laboratory materials needed: None

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

Proposal to Revise A Program
(Consent)**

Contact Person: Travis Newton, travis.newton@wku.edu, 270-745-5890

1. Identification of program:

- 1.1 Current program reference number: 667
- 1.2 Current program title: Major in Film (A.B.)
- 1.3 Credit hours: 39

2. Identification of the proposed program changes:

- Updated catalog description.
- Requirements: Added one new required course (FILM 100 Film Industry and Aesthetics)
- Requirements: Increased total program hours from 39 to 42.
- Requirements: Added language to Admissions Requirements outlining pool of courses available to students seeking admission to film major.
- Updated course numbers and names for FILM 202, FILM 282, FILM 382, FILM 482, as well as electives with new cross-listings or name changes (ENG/FILM 465, SUS 295, PJ 433, etc.)

3. Detailed program description:

Current Program

**Revised Program
(Changes in bold)**

<p>CATALOG DESCRIPTION: This major provides undergraduates a strong fundamental appreciation for cinema theory and criticism, as well as the practical skills to produce their own films. With the opportunity to complete coursework in a variety of disciplines, including English, broadcasting, theatre, and anthropology, the major features a strong interdisciplinary approach to the subject of cinema.</p> <p>The major is composed of required courses in both film production and film theory and appreciation, culminating in a senior seminar. Students must earn a grade of “C” or better in all required courses applied to the film major. At least one half of the hours in the film major must be at the 300- or 400-level. Students are encouraged to participate in</p>	<p>CATALOG DESCRIPTION: The major in film provides undergraduates a strong foundation in both film production and film studies. This combination allows students to gain the practical skills to succeed on a film set in both “below the line” and “above the line” roles, to experience the mechanics of film production in industry and independent settings, and to develop facility in critical and analytical thinking through the study of global film culture, history and aesthetics.</p> <p>The major in film requires 42 semester hours. No course with a grade of “D” or below may be counted toward this major or fulfill prerequisite requirements for any major in the School of Journalism & Broadcasting. One-half of the hours in the film major must be at the 300- or 400-</p>
---	--

<p>relevant study abroad opportunities. A minor or a second major in another discipline outside the area of mass communication is required. No more than 6 hours in the film major may count towards a student's minor.</p> <p>The major requires the following courses: FILM 101, FILM 155, FILM 201, FILM 250, FILM 282, FILM 369, FILM 382, FILM 486, and BCOM 366. Students must take five of the following courses, including at least two in the Film Studies category and two in the Film Production category. Other courses may be approved as a restricted elective upon approval of the faculty advisor in the major and the program coordinator.</p> <p><i>Film Studies:</i> FILM 399, FILM 469, ENG 309, ENG 365, ENG 366, ENG 465, ENG 466, BCOM 481, PS 303, ANTH 448, GERM 437, FREN 450, SPAN 490, SUS 295.</p> <p><i>Film Production:</i> FILM 376, FILM 377, FILM 378, FILM 379, FILM 450, FILM 482, BCOM 378, BCOM 480, PJ 231, PJ 362, PERF 101, THEA 303 / BCOM 303.</p> <p>ADMISSION REQUIREMENTS: Prospective majors may take no more than 12 hours in the major before admission. Students must meet the following requirements before they can be admitted:</p> <ol style="list-style-type: none"> 1. Completion of a minimum of 24 hours of course work applicable to a baccalaureate degree; 		<p>level. Students must take a minimum of 72 semester hours in courses outside of the School of Journalism & Broadcasting unit including the general education requirements.</p> <p>In addition to meeting institutional requirements for graduation, the film major must have a minor or second major that is approved by the major faculty advisor and that is outside of both the School of Journalism & Broadcasting and the Film Studies minor. Students may not select a minor from those offered within the School, unless taken as a second minor.</p> <p>The major requires the following courses: FILM 100, FILM 101, FILM 155, FILM 201, FILM 202, FILM 250, FILM 282, FILM 369, FILM 382, FILM 486, and BCOM 366. Total Number of Hours	39	Total Number of Hours	42

4. Rationale for the proposed program change:

- The program revision will incorporate a new required production course, FILM 100 (Film Industry and Aesthetics). This course serves as an introductory lecture course to better prepare students for success in FILM 202 (formerly 101) Basic Film Production, as well as more advanced production courses. The course introduces key concepts about the film industry at large and the techniques used specifically by filmmakers in a cinematic medium.

- The inclusion of the new required course (FILM 100) will increase the total required hours from 39 to 42, keeping in line with most majors offered in the School of Journalism & Broadcasting.
- The pool of pre-admission courses directs students to courses they will be most successful in prior to their admittance in the Film major. Courses like FILM 282 Film Production Workshop I should be avoided until students have demonstrated academically they are prepared for the workloads required in such classes.
- The catalog description and admissions requirements were updated to better reflect current film curriculum and requirements and bring them more in-line with other School of Journalism & Broadcasting major catalog descriptions.

5. Proposed term for implementation and special provisions (if applicable): Fall 2017

6. Dates of prior committee approvals:

**Potter College of Arts and Letters
Proposal to Revise A Program
(Consent Item)**

Contact Person: Anthony Harkins, anthony.harkins@wku.edu, 5-3149

1. Identification of program:

- 1.1 Current program reference number: 758
- 1.2 Current program title: Popular Culture Studies
- 1.3 Credit hours: 34

2. Identification of the proposed program changes:

- Reduce total required credit hours to 31
- Reduce Required Core Course categories from 4 to 3 and rearrange courses in each category
- Add SUS 295 to new Core Category 3
- Replace BCOM 300 with SJB 310 in new Core Category 2
- Add FLK 275 and 388, RELS 222, SJB 310, and POP 389 as elective options in the major
- OMIT ANTH 350/FLK 350/, BCOM 300, and HIST 490 as elective options

3. Detailed program description:

Existing Program	Proposed Revised Program
<p>Required Courses (16 hours):</p> <p>1. POP 201 (3 hours) Prerequisite: ENG 100 or permission of instructor</p> <p>2. Core Courses (12 hours): Students must take one course from each of the following four categories, each of which represents a shared theoretical approach to the subject.</p> <p>Category One: HIST 340 or HIST 447</p> <p>Category Two: FLK 371, 373, 281</p> <p>Category Three: BCOM 300, SJB 154, ENG 366, ENG 465</p> <p>Category Four: PHIL 207, SOCL 245, PS 372, FILM 201</p>	<p>Required Courses (13 hours):</p> <p>1. POP 201 (3 hours) Prerequisite: ENG 100 or permission of instructor</p> <p>2. Core Courses (9 hours): Students must take one course from each of the following three categories. These are all foundational courses in the major <u>and each category consists of courses with a shared theoretical approach to the subject.</u></p> <p>Category One: <u>History and Folk Studies</u> HIST 340, HIST 447, FLK 371, 373, 281</p> <p>Category Two: <u>Media Studies</u> SJB 154, SJB 310, ENG 366, ENG 465, FILM 201</p> <p>Category Three: <u>Social Sciences</u> PHIL 207, SOCL 324, PS 372, SUS 295</p>

<p>3. POP 498 (1 hour): Prerequisites: POP 201 and Senior status and 21 credit hours in the major prior to or concurrent with taking this course.</p>	<p>3. POP 498 (1 hour): Prerequisites: POP 201 and Senior status and 21 credit hours in the major prior to or concurrent with taking this course.</p>
<p>Elective Courses (18 hours): Students will fulfill the remaining eighteen hours of the major by choosing from the following elective courses: AFAM 190, ANTH 120, 277, 342, 350, 448, ART 312, 313, 325, 334, 390, 405, 408. 409, 410, 445, BCOM 201, 300, 401, ENG 320, 321, 340, 365, 366, 368, 370, 465, 466, FILM 201, 369, 399, FLK 276, 281, 371, 373, 379, 410, 445, 464, 478, FREN 323, 450, GEOG 330, GERM 333, 335, 437, GWS 375, HIST 320, 321, 340, 391, 402, 447, 490, MUS 320, PHIL 207, POP 399, PS 303, 320, 321, 331, 372, SJB 154, SOCL 245, 324, 345, SPAN 373, 376, 490, SUS 295, THEA 430.</p> <p>Students must earn a grade of “C” or better in all required non-elective courses applied to the popular culture studies major. Students can take no more than 6 credit hours in any one discipline unless they are minoring or double majoring in that discipline. Students should consult the appropriate department and course catalog listing for any prerequisites.</p>	<p>Elective Courses (18 hours): Students will fulfill the remaining eighteen hours of the major by choosing from the following elective courses: AFAM 190, ANTH 120, 277, 342, 350, 448, ART 312, 313, 325, 334, 390, 405, 408, 409, 410, 445, BCOM 201, 300, 401, ENG 320, 321, 340, 365, 366, 368, 370, 465, 466, FILM 201, 369, 399, FLK 275, 276, 281, 371, 373, 379, 388, 410, 445, 464, 478, FREN 323, 450, GEOG 330, GERM 333, 335, 437, GWS 375, HIST 320, 321, 340, 391, 402, 447, 490, MUS 320, PHIL 207, POP 389, 399, PS 303, 320, 321, 331, 372, RELS 222, SJB 154, 310, SOCL 245, 324, 345, SPAN 373, 376, 490, SUS 295, THEA 430.</p> <p>Students must earn a grade of “C” or better in all required non-elective courses applied to the popular culture studies major. Students can take no more than 6 credit hours in any one discipline unless they are minoring or double majoring in that discipline. Students should consult the appropriate department and course catalog listing for any prerequisites.</p>

4. Rationale for the proposed program changes:

Due to recent changes in faculty and in courses being offered in other departments that are central to the major, the Core Categories are being reduced and rearranged to allow students greater flexibility in selecting courses while still ensuring that students study Popular Culture Studies from a range of courses that all focus on the topic from a specific disciplinary approach. Each category of courses also share a common broader theoretical approach to Popular Culture Studies. Reducing the number of core categories from four to three and adding SJB 310 to Category 2 and SUS 295 to Category 3 will also better ensure that a wider range of course offerings in all categories will be available each semester so that students can make timely advancement toward their degree. Elective course changes reflect the:

- a. addition of a previously existing course with a clear pop culture component (FLK 275: Supernatural Folklore);
- b. change in the numbering of a Folk Studies course that was previously offered as an elective in the Popular Culture Studies major (FLK 379: Special Topics: Foodways is now FLK 388: Foodways);

Proposal Date: January 11, 2017

**Ogden College of Science & Engineering
Department of Chemistry
Proposal to Revise Course Catalog Listing
(Information Item)**

Contact Person: Jeremy B. Maddox, jeremy.maddox@wku.edu, 5-8725

8. Identification of course:

- 1.1 Course prefix (subject area) and number: CHEM 320
- 1.2 Course title: PRINCIPLES OF INORGANIC CHEMISTRY

9. Current course catalog listing:

A treatment of the usual topics in theoretical inorganic chemistry presented at a level not requiring calculus. It is not acceptable for ACS-program students, who should take CHEM 420.

10. Proposed course catalog listing:

A treatment of the usual topics in theoretical inorganic chemistry presented at a level not requiring calculus.

11. Rationale for revision of the course catalog listing:

CHEM 320 is a foundation-level course in inorganic chemistry that is appropriate for all chemistry majors at the sophomore or junior level. CHEM 320 will become a prerequisite for CHEM 420, which is an in-depth inorganic chemistry course, appropriate for senior-level chemistry majors.

12. Proposed term for implementation:

Fall 2017

13. Dates of prior committee approvals:

Department of Chemistry	1/10/2017
Ogden College Curriculum Committee	2/2/2017
Professional Education Council	2/8/2017
Undergraduate Curriculum Committee	<u>02/23/2017</u>
University Senate	_____

**Ogden College of Science & Engineering
Department of Chemistry
Proposal to Revise Course Catalog Listing
(Information Item)**

Contact Person: Jeremy B. Maddox, jeremy.maddox@wku.edu, 5-8725

1. Identification of course:

1.1 Course prefix (subject area) and number: CHEM 330

1.2 Course title: QUANTITATIVE ANALYSIS

2. Current course catalog listing:

A study of the common techniques and theory of gravimetric, volumetric, electrochemical, and optical methods of analysis. Lecture, 3 hours; laboratory, 2 hours. Laboratory meets four and one-half hours per week. Priority for registration for this course will be given to rising sophomores and rising juniors. *Course Fee*

3. Proposed course catalog listing:

A study of the common techniques and theory of gravimetric, volumetric, electrochemical, and optical methods of analysis. Lecture, 3 hours; laboratory, 2 hours. Laboratory meets four and one-half hours per week. *Course Fee*

4. Rationale for revision of the course catalog listing:

Additional lab space that will be available in the new building will no longer pose as much of a physical restriction on the number students we can take each term. The process for determining 'rising sophomore and rising junior' status is difficult with the number of AP/dual credit/etc. hours students have when they come to WKU. We were often preventing students in their second year at WKU from registering when they should have been because they already had junior or senior status by hours. This change will remove administrative burden from office staff in giving course overrides.

5. Proposed term for implementation:

Fall 2017

6. Dates of prior committee approvals:

1. Identification of course:

1.1 Course prefix (subject area) and number: CHEM 420

1.2 Course title: INORGANIC CHEMISTRY

2. Current prerequisites/corequisites/special requirements:

Prerequisites: CHEM 450-451 with a grade of "C" or better.

3. Proposed prerequisites/corequisites/special requirements:

Prerequisites: A grade of "C" or better in CHEM 320 and CHEM 450-451.

4. Rationale for the revision of prerequisites/corequisites/special requirements:

CHEM 420 is an in-depth inorganic chemistry course. To be successful students should have a solid foundation-level experience, which CHEM 320 will provide.

5. Effect on completion of major/minor sequence:

This will require ACS-certified chemistry majors to take an additional three credit hour course in the sophomore or junior year prior to taking CHEM 420.

6. Proposed term for implementation:

Fall 2017

7. Dates of prior committee approvals:

Department of Chemistry

1. Identification of course:

- 1.1 Course prefix (subject area) and number: EE 461
- 1.2 Course title: Discrete Control Systems

2. Current prerequisites:

EE 420

3. Proposed prerequisites:

EE 420 (“C” or better) or ME 310 (“C” or better)
and
MATH 307 or MATH 350 or MATH 370

4. Rationale for the revision of prerequisites:

This course has been added to the list of technical electives for mechanical engineering students. The change in pre-requisite courses is to reflect the appropriate preparation needed for both mechanical and electrical engineering students.

Also, electrical engineering students need adequate mastery of the material in EE 420 before taking this course.

5. Effect on completion of major/minor sequence:

This change will provide more options for the mechanical engineering students.

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

- 1. Identification of course:**
 - 1.1 Course prefix (subject area) and number: EE 400
 - 1.2 Course title: Principles of Systems Engineering

- 2. Current prerequisites:**

Junior standing in an engineering discipline; and
STAT 301 and
EE 210 or EM 221 or EM 222

- 3. Proposed prerequisites**

Junior standing in an engineering discipline; and
STAT 301 or CE 305
and
EE 210 or EM 221 or EM 222

- 4. Rationale for the revision of prerequisites:**

The civil engineering program no longer requires STAT 301 but now requires CE 305.
The Systems Engineering minor requires either STAT 301 or CE 305.

- 5. Effect on completion of major/minor sequence:**

This change will have no change on the completion of the minor.

- 6. Proposed term for implementation:** Fall 2017

- 7. Dates of prior committee approvals:**

Engineering Department

Proposal to Revise Course Prerequisites/Corequisites
(Consent)**

Contact Person: Jeremy B. Maddox, jeremy.maddox@wku.edu, 5-8725

1. Identification of course:

1.3 Course prefix (subject area) and number: CHEM 435

1.4 Course title: Instrumental Analysis

2. Current prerequisites/corequisites/special requirements:

Prerequisites: CHEM 450-451 with a grade of "C" or better.

3. Proposed prerequisites/corequisites/special requirements:

Prerequisites: CHEM 330 and CHEM 340 with a grade of "C" or better.

Corequisites: CHEM 436.

4. Rationale for the revision of prerequisites/corequisites/special requirements:

The embedded laboratory component of CHEM 435 is being moved to a new separate laboratory course CHEM 436. The prerequisites CHEM 330 and CHEM 340 are included to ensure that students have adequate preparation for CHEM 435.

5. Effect on completion of major/minor sequence:

The addition of CHEM 330, CHEM 340, and CHEM 436 has no impact on the major sequence. Removing the prerequisite CHEM 450 allows students to take CHEM 435 and 450 in any order.

6. Proposed term for implementation:

Winter 2018

7. Dates of prior committee approvals:

**Ogden College of Science & Engineering
Department of Chemistry
Proposal to Create a New Course
(Consent Item)**

Contact Person: Jeremy B Maddox, jeremy.maddox@wku.edu, 5-8725

1. Identification of proposed course:

- 1.1 Course prefix (subject area) and number: CHEM 436
- 1.2 Course title: Instrumental Analysis Laboratory
- 1.3 Abbreviated course title: Instr. Analysis Lab
- 1.4 Credit hours: 2 Variable credit: No
- 1.5 Grade type: Standard letter grade
- 1.6 Corequisite: CHEM 435
- 1.7 Course description: A laboratory to accompany CHEM 435 focusing on techniques involving modern instrumental analysis. Pre-lab lecture and laboratory meets 4.5 hours per week. *Course Fee*

2. Rationale:

- 2.1 Reason for developing the proposed course:

CHEM 436 is a laboratory course designed to accompany CHEM 435. CHEM 435 is a 3-hour course that currently contains an embedded laboratory component. The embedded laboratory detracts from the amount of lecture material that can be covered in one semester. Creating the separate CHEM 436 laboratory course will enhance both the lecture and laboratory components of the experience, and will streamline the how the Department reports student laboratory hours for certification by the American Chemical Society.

- 2.2 Projected enrollment in the proposed course:

Five to ten students based on typical enrollments in CHEM 435. Only chemistry majors in the ACS-certified concentration would take this course.

- 2.3 Relationship of the proposed course to courses now offered by the department:

CHEM 436 will serve a laboratory co-requisite to accompany CHEM 435. There are no other existing CHEM courses that could fulfill this objective. CHEM 435 and CHEM 436 are not prerequisites for any other courses in the ACS-certified chemistry major; therefore, there is no impact on course sequencing.

- 2.4 Relationship of the proposed course to courses offered in other departments:

There are no similar courses offered by other departments. CHEM 436 is a majors only course involving specialized equipment for chemical analysis. It is highly unlikely that another department will ever offer a similar course.

2.5 Relationship of the proposed course to courses offered in other institutions:

Every institution that offers an ACS-certified chemistry degree must offer an in-depth course in analytical chemistry that utilizes modern instrumental analysis. However, there is some variety in how different programs deliver this content. Some programs use an embedded laboratory while others have a separate laboratory course. The Department has elected to switch from the former to the latter approach.

3. Discussion of proposed course:

3.1 Schedule type: B

3.2 Learning Outcomes:

Students will gain an appreciation for modern instrumental methods of chemical analysis and be able to determine the most appropriate method for a given analysis. This will entail descriptions of the fundamentals instrumental components found in Spectrophotometric, Electrochemical and Chromatographic instrumentation. The student will also be expected to obtain a statistical understanding of acquiring signals and processing them.

3.3 Content outline:

Statistical factors in data acquisition and analysis

Elementary electronics

Spectroscopic methods of analysis

Electrochemical methods of analysis

Chromatographic methods of analysis

3.4 Student expectations and requirements:

Students will be given a variety of samples to analyze by a variety of instrumental methods. The student will be able to compare and contrast outcomes of different analyses. A combination of short and formal lab reports will be required for grading. A formal presentation on a chosen instrumental technique not covered in lecture will also be required as part of the assigned grade.

3.5 Tentative texts and course materials:

Fundamentals of analytical chemistry, 9th ed., Douglas A. Skoog,
Donald M. West, F. James Holler, and Stanley R. Crouch
ISBN-13: 978-0-49555832-3

Journal of Chemical Education: (e-journal available in WKU library)

4. Resources:

- 4.1 Library resources: See attached library resource form and bibliography
- 4.2 Computer resources: No new additional resources are required.

5. Budget implications:

- 5.1 Proposed method of staffing: Existing faculty will teach the course.
- 5.2 Special equipment needed: No special equipment needed.
- 5.3 Expendable materials needed: Already in place from CHEM 330.
- 5.4 Laboratory materials needed: Already in place from CHEM 330.

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

Department of Chemistry

1/10/2017

Department of Chemistry
Proposal to Revise A Program
(Consent Item)**

Contact Person: Jeremy B. Maddox, jeremy.maddox@wku.edu, 5-8725

1. Identification of program:

- 1.1 Current program reference number: 335
- 1.2 Current program title: Minor in Chemistry
- 1.3 Credit hours: 18-24

2. Identification of the proposed program changes:

- 2.1 The minimum number of CHEM credit hours is increased from 18 to 20 hours.
- 2.2 An unrestricted CHEM 300+ (3-6 hr) elective is replaced by CHEM 340/341 (5 hr).

3. Detailed program description:

(Side-by-side table is required for most program changes showing revised program on the right and identifying deletions by strike-through and additions in boldface.)

Current Program	Proposed Program
The minor in chemistry requires a minimum of 18-21 hours.	The minor in chemistry requires a minimum of 20 hours.
Course requirements (18-21 hrs) CHEM 120/121 (5) CHEM 222/223 (5) CHEM 330 (5) CHEM 300+ (3-6)	Course requirements (20 hrs) CHEM 120/121 (5) CHEM 222/223 (5) CHEM 330 (5) CHEM 300+ (3-6) CHEM 340/341 (5)
At least nine semester hours must be earned in courses numbered 300 and above and at least one upper-division laboratory based course must be taken in residence at the WKU Bowling Green campus.	At least ten semester hours must be earned in courses numbered 300 and above and at least one upper-division laboratory based courses must be taken in residence at the WKU Bowling Green campus.

4. Rationale for the proposed program change:

The current program contains an unrestricted CHEM 300+ elective of 3-6. The most common and the most appropriate choice for this elective is CHEM 340/341 Organic Chemistry I and Laboratory. Therefore, CHEM 340/341 is explicitly added to the program and the elective is removed; this Consent then requires a minimum of 20 CHEM credit hours to complete the minor.

5. Proposed term for implementation and special provisions (if applicable):

Fall 2017

6. Dates of prior committee approvals:

1. Identification of program:

- 1.1 Current program reference number: 623
- 1.2 Current program title: Major in Chemistry
- 1.3 Credit hours: 30-48

2. Identification of the proposed program changes:

- 2.1 A second major or minor is no longer required for students pursuing a Major in Chemistry with the American Chemical Society (ACS)-certified concentration.
- 2.2 The minimum number of CHEM credit hours for the ACS-certified concentration is increased to from 47-48 to 53 hours.
- 2.3 A requirement of CHEM 320 is added to the ACS-certified concentration. The catalog description for CHEM 320 is revised, and CHEM 320 is added to the prerequisites for CHEM 420. A requirement CHEM 421 is added to the ACS-certified concentration.
- 2.4 Registration preference in CHEM 330 is no longer given to rising sophomores and rising juniors.
- 2.5 The course CHEM 436 is created. A requirement of CHEM 436 is added to the ACS-certified concentration.
- 2.6 The pre/corequisites for CHEM 435 are changed to “Prerequisites: CHEM 330 and CHEM 340 with a grade of “C” or better. Corequisite: CHEM 436.”
- 2.7 The pre/corequisites for CHEM 450 are changed to “Prerequisites: A grade of “C” or better in CHEM 314 or 340; CHEM 330; MATH 136, PHYS 231 or 255. Corequisite: CHEM 451.”
- 2.8 The pre/corequisites for CHEM 452 are changed to “Prerequisites: A grade of “C” or better in CHEM 320; CHEM 450; MATH 137; PHYS 265 or 332. Corequisite: CHEM 453.”
- 2.9 Substitution of PHYS 231/232 for PHYS 255/256 and PHYS 332/233 for PHYS 265/266 is included for the cognate course requirements of the ACS-certified concentration.
- 2.10 LTCY 421 is added to the Chemistry Major with Teacher Certification (Teacher) concentration; this increases the minimum number of the SMED requirements for the Teacher concentration from 34 to 37 hours.

3. Detailed program description:

(Side-by-side table is required for most program changes showing revised program on the right and identifying deletions by strike-through and additions in boldface.)

Current Program	Proposed Program
The major in chemistry requires a minimum of 30 semester hours and leads to the Bachelor of Science degree.	The major in chemistry requires a minimum of 30 semester hours and leads to the Bachelor of Science degree. Requirements of the major include selecting one of three concentrations.
A second major or minor is also required.	A second major or minor or the ACS-certified concentration is also required.
<p><i>ACS Certified Chemistry Major Concentration</i></p> <p>WKU is on the approved list of the Committee on Professional Training of the American Chemical Society. ---	---

4. Rationale for the proposed program change:

Background

The Department of Chemistry has undertaken a comprehensive review of its curriculum relative to a set of internally selected benchmark institutions:

Ball State University, California State University-Long Beach, Centre College, East Carolina University, East Tennessee State University, Eastern Kentucky University, Eastern Michigan University, Illinois State University, James Madison University, Middle Tennessee University, Montclair State University, University of North Carolina at Charlotte, University of North Carolina at Wilmington, Northern Arizona University, and Western Washington University

After careful consideration of many different factors, the Department proposes the following revisions that will strengthen its academic program.

ACS-Certified Major Concentration

The ACS-certified concentration exceeds the minimum of 48 credit hours required for a stand-alone major at WKU. A second major or minor is not necessary to complete the requirements for a baccalaureate degree; therefore, students that complete the ACS-certified concentration are not required to obtain a second major or minor.

The addition of CHEM 320 provides the ACS-certified concentration with a solid foundation-level experience in inorganic chemistry that will serve as a prerequisite for the required in-depth inorganic chemistry course CHEM 420. Several of our internally selected benchmark institutions also require both foundation-level and in-depth inorganic chemistry courses.

Registration preference in CHEM 330 is no longer given to rising sophomores and rising juniors, as additional lab space that will be available in the new building (Ogden College Hall) will no longer pose as much of a physical restriction on the number of students we can take each term. The process for determining 'rising sophomore and rising junior' status is difficult with the number of AP/dual credit/etc. hours students have when they come to WKU. We were often preventing students in their second year at WKU from registering when they should have been because they already had junior or senior status by hours. This change will remove administrative burden from office staff in giving course overrides.

The addition of a new CHEM 436 laboratory course to accompany the CHEM 435 lecture course for the ACS-certified concentration will enhance students' exposure to in-depth topics in analytical chemistry and instrumental analysis. The current program invokes a 3-hour lecture/lab model that includes two 55-minute lecture periods and a 4.5-hour laboratory per week. The two-course model allows for expanded discussion of topics in lecture and will further capitalize on the Department's instrumental analysis facilities. The prerequisites/corequisites for CHEM 435 are revised accordingly.

The pre/corequisites for the physical chemistry course sequence CHEM 450 and 452 are modified to reflect precisely which cognate courses in MATH and PHYS are needed for the specific topics covered in each CHEM course. CHEM 450 emphasizes chemical thermodynamics and kinetics, which requires students to have mastered the mathematical and physical concepts covered in MATH 136 and PHYS 231 or 255, respectively.

Department of Geography & Geology
Proposal to Create a New Course
(Consent Item)**

Contact Person: Josh Durkee Email: joshua.durkee@wku.edu Phone: 5-8777

1. Identification of proposed course:

- 1.1 Course prefix (subject area) and number: METR 335
- 1.2 Course title: Satellite/Radar Meteorology
- 1.3 Abbreviated course title: Satellite/Radar Meteorology
- 1.4 Credit hours: 3 Variable credit: No
- 1.5 Grade type: __x__ standard letter grade
- 1.6 Prerequisites: METR 324
- 1.7 Course description:

An introduction to remote sensing specific to the atmospheric sciences. Specific attention is given to analysis, diagnostic, and prognostic determinations using various satellites, as well as surface and space-based active radar systems. Specific applications focus on synoptic and mesoscale phenomena, including large-scale kinematics and morphology, clouds, derived radar interpretation, precipitating systems, and precipitation measurement.

2. Rationale:

- 2.1 Reason for developing the proposed course:
 - Provide a dedicated course that focuses on the otherwise deficiently covered topics of remote sensing applications in meteorology. Further, skills and knowledge from this course are highly sought after by employers in the meteorological sector.
- 2.2 Projected enrollment in the proposed course: 15-20
- 2.3 Relationship of the proposed course to courses now offered by the department:
 - The department offers a fundamental course in remote sensing, but the dimension and applications as they relate to meteorology are not taught. The proposed course will provide balanced material complementary to that course.
- 2.4 Relationship of the proposed course to courses offered in other departments:
 - There are no other courses at WKU that are similar or related to satellite/radar meteorology.
- 2.5 Relationship of the proposed course to courses offered in other institutions:
 - Benchmark and/or regional institutions that offer B.S. Meteorology degrees traditionally offer a course in satellite/radar meteorology. These include Ball State University, Purdue University, University of Alabama-Huntsville, Western Illinois University, and Valparaiso University.

3. Discussion of proposed course:

3.1 Schedule type: L (Lecture)

3.2 Learning Outcomes:

- Provide students with a fundamental understanding of various past, current, and future remote-sensing technologies, how these systems operate, and demonstrates how to utilize them for meteorological interpretation, analysis, and forecasting.

3.3 Content outline:

Week	Topic of Lecture
1	Introductions; Course expectations History & current state of atmospheric science remote sensing; Role of NWP
2	-Electromagnetic Radiation; Resolution - Kepler's Law; Polar and Geostationary platforms
3	-Absorption and emission -Planck's, Wien's, Rayleigh-Jeans, & Stefan-Boltzmann Laws; Brightness
4	Temperatures -Synoptic-scale cloud patterns
5	-Water vapor -Snow and fog
6	-Winds -Mesoscale cloud patterns
7	-Precipitation measurement -Tropical Rainfall Measuring Mission -Global Precipitation Measurement
8	Review Day; Satellite projection portion spot check. Test 1
9	-History & current state of atmospheric science remote sensing -WSR-88D; TDWR; TRMM and GPM; Phased Array
10	-Passive vs. Active remote sensing; Microwave remote sensing -Radar fundamentals; Bands;
11	-cloud & precipitation droplet size, distribution, Z-R relationship -Rayleigh and Mie scattering
12	-Reflectivity and velocity; scan strategies -Polarimetry
13	-Derived products -Mesoscale analysis and interpretation
14	-Mesoscale forecast applications Test II
15	Presentations Presentations Class Projects Due

3.4 Student expectations and requirements:

-Grades will consist of two exams over lecture (40%), homework exercises (15%), and formal research consisting of a written and oral presentation (45%)

3.5 Tentative texts and course materials:

- *Satellite Meteorology: An Introduction* by Kider and Vonder Haar ISBN-10: 0124064302
- *Weather Radar Handbook* by Vasquez ISBN-10: 0983253323

4. Resources:

- 4.1 Library resources: see attached library resource form and bibliography.
- 4.2 Computer resources: no new additional resources are required.

5. Budget implications:

- 5.1 Proposed method of staffing: existing faculty will teach this course.
- 5.2 Special equipment needed: existing computing infrastructure will be used.
- 5.3 Expendable materials needed: none.
- 5.4 Laboratory materials needed: none.

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

1. Identification of program:

- 1.1 Current program reference number: 434
- 1.2 Current program title: Minor in Neuroscience
- 1.3 Credit hours: 21 hours

2. Identification of the proposed program changes:

- Addition of PSYS 362 as a possible course that students can complete in place of PSYS 360
- Removal of redundant language about restriction on possible overlapping credit hours between Neuroscience minor and other majors

3. Detailed program description:

<p>Current Program: The minor in Neuroscience offers students the opportunity to study the intersection of brain and behavior in a manner that incorporates tools and perspectives from the psychological and biological sciences, and related disciplines. This minor will be an attractive option for students who are (1) planning to pursue advanced study in any of several fields related to neuroscience, including psychology, biology, medicine, counseling, or social work or (2) seeking relevant training for jobs related to the assessment, rehabilitation, and treatment of brain damage, brain diseases, and addiction. The minor in Neuroscience requires a minimum of 21 credit hours of coursework. This includes 6 hours of the following required courses: PSYS 360 and BIOL 335. An additional 15 credit hours in electives may be selected from the following courses: PSYS 331, PSYS 333, PSYS 363, PSYS 462, PSYS 465, BIOL 319, BIOL 327, BIOL 334, BIOL 446 / CHEM 446 or PHIL 332. Note: Students must choose</p>	<p>Proposed Program: The minor in Neuroscience offers students the opportunity to study the intersection of brain and behavior in a manner that incorporates tools and perspectives from the psychological and biological sciences, and related disciplines. --	---

(Side-by-side table is required for most program changes showing revised program on the right and identifying deletions by strike-through and additions in boldface.)

4. Rationale for the proposed program change:

The Department of Psychological Sciences developed PSYS 362 to give students an opportunity to be engaged with neuroscience in a lab setting. The proposed change will allow students who want to have this experience to complete the course within the neuroscience minor. Also, a statement restricting the number of credits that students can count toward this minor and the Psychological Science major or Biology major is being removed because it is redundant. Students must earn 48 unduplicated hours between their major and minor programs, so the statement that has been struck out is not needed.

5. Proposed term for implementation and special provisions (if applicable): Fall 2017

6. Dates of prior committee approvals:

Department of Psychological Sciences	<u>January 20, 2017</u>

1. Identification of program:

- 1.1 Current program reference number: 440
- 1.2 Current program title: Minor in Psychological Science
- 1.3 Credit hours: 22 hours

2. Identification of the proposed program changes:

- Addition of PSYS 362 as a possible course that students can complete in the Learning, Cognition, and Biopsychology category (B) of restricted electives.
- Minor edit of description of electives required for minor

3. Detailed program description:

<p>Current Program:</p> <p>The minor in Psychological Science provides graduates with a broad overview of the discipline as well as exposure to the foundations of the discipline. The Psychological Science minor focuses students on becoming more engaged and critical consumers of the science underlying psychology through courses informed by current research and practice in the scientific student of individual and collective behavior, the physical and environmental bases of behavior, and the analysis and treatment of behavioral problems. This minor might appeal to students who are in a pre-professional track (e.g., pre-med) or to students majoring in disciplines where psychological science can inform research and practice (e.g., biology, computer science, philosophy, religious studies, nursing, communication disorders, management, etc.).</p> <p>The minor requires a minimum of 22 credit hours. The following 7 hours are required: PSYS 100 or PSYS 160, 210, and 211.</p>	<p>Proposed Program:</p> <p>The minor in Psychological Science provides graduates with a broad overview of the discipline as well as exposure to the foundations of the discipline. Bases of Behavior and Mental Processes, Research Methods and Statistics, and Integrative Science in Psychology. To complete the Concentration requirement, students will select courses from one or two of the six thematic concentrations or they may design a custom concentration (subject to approval by their advisor). Students in the 37-hour option will complete 12 credit hours from one thematic concentration, or design a custom concentration by selecting 12-24 hours from courses not used to satisfy their Core requirement. Students choosing the 49-hour option will complete 21-24 credit hours from two concentrations.

Students must maintain a minimum 2.50 GPA both overall and in the major. Either (1) MATH 116 and MATH 117, or (2) MATH 118 or higher is required; MATH 183 is recommended.

Applied Psychological Science. This concentration focuses on how psychological science can be used to solve real-world problems in business, sports, or human engineering domains.

Core Courses

PSYS 100 or PSYS 160, PSYS 220 or PSYS 321, PSYS 333, PSYS 350, PSYS 360 or PSYS 363, PSYS 210, PSYS 211, PSYS 313, PSYS 380 or PSYS 481 or PSYS 490

Concentration Courses

Required: PSYS 413
Electives: Choose 9 hours from PSYS 360, PSYS 363, PSYS 370, PSYS 433, PSYS 473, PSYS 481, PSYS

**College of Education and Behavioral Sciences
School of Teacher Education
Proposal to Revise A Program
(Consent)**

Contact Person: John Moore, john.moore@wku.edu, 745- 5415

1. Identification of program:

- 1.1 Current program reference number: 5001
- 1.2 Current program title: Major in Middle Level Education Social Studies and Language Arts
- 1.3 Credit hours: 70-94

2. Identification of the proposed program changes:

- A) The WKU English Department is in process of deleting ENG 390 (Masterpieces in American Literature) as a course offering. Due to the fact that ENG 390 is currently a course requirement for the Middle Level Education in Language Arts and Social Studies major (Concentration 1) **and** Single Area Teacher Certification in Middle Level Language Arts (Concentration 3), another 300 level ENG course is needed to replace ENG 390. Therefore, ENG 391 (Survey of American Literature I) **or** ENG 392 (Survey of American Literature II) is being proposed to replace the ENG 390 course requirement.
- B) The WKU English Department has changed ENG 304 to ENG 204. The change is in number only, not in content. The English Department states “the hope is that students will enroll in the course (ENG 204) earlier rather than later.” This change impacts Single Area Teacher Certification in Middle Level Language Arts (Concentration 3).

3. Detailed program description:

Current Program	Proposed Program
<p>The Middle Level Education in Social Studies and Language Arts program leads to the Bachelor of Science degree and certification for grades 5-9 in Social Studies, Language Arts/Communication, or both. Three concentrations are available: 1) Dual area teacher certification in middle level social studies and language arts/communication; 2) Single area teacher certification in middle level social studies; 3.) Single area teacher certification in middle level language arts/communication.</p> <p>The program requires completion of:</p> <p><input type="checkbox"/> A biological science course and a physical science course, generally taken as part of general education coursework;</p>	<p>The Middle Level Education in Social Studies and Language Arts program leads to the Bachelor of Science degree and certification for grades 5-9 in Social Studies, Language Arts/Communication, or both. 4. Rationale for the proposed program changes:

- A) The WKU English Departmental faculty is in process of deleting ENG 390 (Masterpieces in American Literature) as a course offering. Due to the fact that ENG 390 is currently a course requirement for the Middle Level Education in Language Arts and Social Studies major (Concentration 1) **and** Single Area Teacher Certification in Middle Level Language Arts (Concentration 3), a 300 level ENG course is needed to replace ENG 390.
- B) The WKU English Department has changed ENG 304 to ENG 204. The change is in number only, not in content. The English Department states “the hope is that students will enroll in the course (ENG 204) earlier rather than later.” This change impacts Single Area Teacher Certification in Middle Level Language Arts (Concentration 3).

5. Proposed term for implementation and special provisions (if applicable):

Fall 2017

6. Dates of prior committee approvals:

School of Teacher Education	<u>11/11/2016</u>

University Senate	_____

Proposal Date: November 21, 2016

**Gordon Ford College of Business
Management Department
Proposal to Revise A Program
(Consent)**

Contact Person: Dana Cosby, Dana.Cosby@wku.edu, 270-745-5813

1. Identification of program:

- 1.4 Current program reference number: 569
- 1.5 Current program title: Major in International Business
- 1.6 Credit hours: 73

2. Identification of the proposed program changes:

- Add **MGT 316** as a required course.
- Changed the requirement of MGT 305 or COMM 463 to a broader cultural component requirement to include three hours selected from: **CHIN 333, CHNF 430, COMM 463, FREN 323, GEOG 462, GEOG 465, GEOG 466, GEOG 467, GERM 333, ICSR 380, SOC 363, SOC 376, SPAN 372, or SPAN 373.**
- Added the following courses as options for the language requirement: **ARBC 102, CHIN 102, CHNF 102, JAPN 102, RUSS 102, ARBC 201, CHIN 201, CHNF 201, JAPN 201, RUSS 201**
- Add **MKT 491** as an option in the Study Abroad or MGT 490 requirement.
- Change the program model from 15 hours of International Business electives to 12 hours selected from one of four tracks, including **International Management, Global Supply Chain, Global Entrepreneurship, or Global Trade and Economy.** Each track includes a selection of applicable courses from across the disciplines.

3. Detailed program description:

Current	Proposed
<p>The major requires 73 semester hours. The curriculum consists of:</p> <ul style="list-style-type: none"> • Required courses include: ACCT 200, ACCT 201, ECON 202, ECON 203, ECON 206, CIS 141, CIS 243, FIN 330, MKT 220, MGT 200, MGT 210, MGT 314, MGT 498 or ENT 496, MGT 313, MGT 305 or COMM 463, and MGT 499. • 3 hours of foreign language must be selected from FREN 102, GERM 102, SPAN 102 and another three hours from FREN 201, GERM 201, SPAN 201. • A three-hour study abroad or MGT 490 is required. • 15 hours from the following international business electives with at least three areas represented: ECON 380, ECON 385, ECON 386, ECON 496, ENT 425, FIN 436, MGT 316, MGT 390, MGT 413, MKT 324, MKT 491; any other courses approved by the chair of the Management Department 	<p>The major requires 73 semester hours. The curriculum consists of:</p> <ul style="list-style-type: none"> • Required courses include: ACCT 200, ACCT 201, ECON 202, ECON 203, ECON 206, CIS 141, CIS 243, FIN 330, MKT 220, MGT 200, MGT 210, MGT 303, MGT 314, MGT 316, MGT 498 or ENT 496, MGT 313, MGT 305 or COMM 463, and MGT 499. Three hours must be selected as a cultural component from the following: CHIN 333, CHNF 430, COMM 463, FREN 323, GEOG 462, GEOG 465, GEOG 466, GEOG 467, GERM 333, ICSR 380, SOC 363, SOC 376, SPAN 372, or SPAN 373. • 3 hours in foreign language must be selected from ARBC 102, CHIN 102, CHNF 102, FREN 102, GERM 102, JAPN 102, RUSS 102, SPAN 102 and another three hours from ARBC 201, CHIN 201, CHNF 201, FREN 201, GERM 201, JAPN 201, RUSS 201, SPAN 201. • A three-hour study abroad or MGT 490 or MKT 491 is required. • 12 hours from international business courses from one of the following tracks: International Management, Global Supply Chain, Global Entrepreneurship, or Global Trade and Economy. For International Management take twelve hours from: FIN 436, LEAD 450, MGT 305, MGT 383, MGT 413, MGT 495, or PS 350. For Global Supply Chain, take AMS 371, AMS 394, AMS 396, AMS 430, BI 310, MKT 324, or MKT 423. For Global Entrepreneurship take ENT 308, ENT 312, ENT 380, ENT 425, ENT 496, or MGT 390. For Global Trade and Economy take ECON 380, ECON 385, ECON 430, ECON 467, ECON 496, or PS 449.

4. Rationale for the proposed program change:

We compared required courses for the International Business Major with those of our Comparable Peer, Aspirant, and Competitive Benchmark Groups. Of those schools offering an International Business Major, we found that while our program is comparable in required hours for the degree, an update in structure is needed for better alignment in the academic marketplace.

Further, best practices include (1) an emphasis on cultural competence, (2) a deeper concentration in business disciplines such as International Management, International Entrepreneurship, and Trade and Economy; and (3) the integration of global business topics such as sustainable business and and global supply chain management.

Our changes create a common foundation for international business study and provide a more structured interdisciplinary academic experience than the previous design. The focused tracks better develop business and cultural competencies needed by business and industry. This approach offers better academic preparation for students with career aspirations in international business.

5. Proposed term for implementation and special provisions (if applicable): Fall 2017

Proposal Date: January 4, 2017

**Gordon Ford College of Business
Department of Finance
Proposal to Create a New Course
(Consent Item)**

Contact Person: Indudeep Chhachhi
Email: indudeep.chhachhi@wku.edu
Office phone: 745-2928

1. Identification of proposed course:

- 1.1 Course prefix (subject area) and number: FIN 300
- 1.2 Course title: Career Readiness in Finance
- 1.3 Abbreviated course title: Career Readiness in Finance
(maximum of 30 characters or spaces)
- 1.4 Credit hours: 1 Variable credit: no
- 1.5 Grade type: Standard letter grade
- 1.6 Prerequisites: Completion of or current enrollment in FIN 330; Restrictions: junior standing and reference code 664P

- 1.7 Course description: Introduction to preparation for a career in Finance including exposure to careers in finance; certifications in the profession; development of professional writing skills, professional resumés and cover letters; oral communications; interviewing skills; goal setting; ethical standards; and professional networking. This course is limited to juniors and seniors in the Finance program. Assignments may include travel.

2. Rationale:

- 2.1 Reason for developing the proposed course: The department currently requires all graduating seniors to take FIN 499: Senior Assessment. FIN 499 includes coverage of topics in career development and readiness. The department believes emphasis on career development should more appropriately be required earlier in the program so that students have a longer period of time for personal skill development and to gain knowledge and foresight for securing jobs and internships. Career readiness skills would be introduced in this junior level course and reinforced throughout the remainder of a student's time in the program. Waiting until the last semester of study (FIN 499 must be taken in a student's final semester) to provide career readiness skills does not best serve student needs. Overall, making students better prepared and more aware earlier in their program should produce more productive, engaged members of the global society. Emphasizing interpersonal skills will result in a basis of understanding for lifelong learning and personal development. Understanding the impact and importance of classroom preparedness should foster academic excellence.

- 2.2 Projected enrollment in the proposed course: 35 to 40 students per semester. Nonmajors are not expected to enroll in this course. CFP® Financial Planning certificate students will be encouraged to take this course.
- 2.3 Relationship of the proposed course to courses now offered by the department: Career readiness topics and activities are currently part of the curriculum in FIN 499, Senior Assessment. The primary focus of the Senior Assessment course, however, is to assess discipline knowledge prior to graduation. The proposed course is expected to be taken at the beginning of a student's junior year although students may fulfill the requirement at any time before graduation. Taking this course during the junior year allows reinforcement of readiness in subsequent classes.
- 2.4 Relationship of the proposed course to courses offered in other departments: The Gordon Ford College of Business offers an interdisciplinary Certificate in Advanced Professionalism which focuses on competencies needed for career readiness and professional development for transitioning to the business field, including assessment, exploration and experiential components. The certificate is not required by any major. It is possible that this proposed course would make students aware of the certificate and feed students into pursuing the certificate.
- 2.5 Relationship of the proposed course to courses offered in other institutions: A search of Benchmark institutions reveals no similar courses being offered. Career readiness services are provided through institutional Career Services departments, but student participation is elective. There do not appear to be any discipline-specific course offerings of this kind. No Kentucky universities offer a similar course. The University of Louisville requires all business majors complete a one-hour course, BA 201 Career Development. The course description follows: Prerequisite: Admission to College of Business, Sophomore Standing or permission of instructor. To introduce business students to career development, including the importance of career planning. Eastern Kentucky University requires students to complete a one-day zero credit Professional Skills seminar before graduation. The seminar is a pre-requisite for a 400 level zero credit course required for graduation.

3. Discussion of proposed course:

3.1 Schedule type: Lecture (L)

3.2 Learning Outcomes:

By the end of this course, Finance students should be able to

- Identify viable careers in the field and know the skills necessary for that field
- Identify the benefits of certifications in the field and the ethical standards of the certifying body
- Apply advanced Excel skills
- Produce a professional cover letter and resume
- Apply best practices in job interviews
- Identify the need for and be able to execute good networking skills
- Set short- and long-term SMART goals

- Deliver a professional presentation
- Be able to meet and communicate with Finance professionals

3.3 Content outline:

Module 1 - Foundations

- What employers look for in new hires
- Excel in the work place
- Personal development and growth in the field
- Setting SMART goals
 - At WKU
 - For life

Module 2 – Job Search

- The why and how of finding an internship
- Job search techniques and sites
- Network
- Professional associations
- Career development resources
- Using social media
- Career skills
- Job shadowing/Mentors

Module 3 – Written Business Communication

- Business reports
- Cover letters
- Professional resume
- Email etiquette
- Thank you notes

Module 4 – Oral Business Communication

- Interviewing for the job
- How to network
- Developing contacts
- The art of small talk
- How to make an effective presentation

3.4 Student expectations and requirements: This is an experiential course where students will be assessed by demonstrating effective application of professional requirements identified throughout the course. Applications include but are not limited to: executing a realistic analysis using Excel, the development of professional documents, executing a professional interview, developing appropriate SMART goals, taking part in job shadowing and reporting on the experience, completing personal comfort zone exercises, executing networking skills, and making a professional presentation.

3.5 Tentative texts and course materials: There is no required text for this course. Materials will be drawn from current professional finance publications and internet resources.

4. Resources:

4.1 Library resources: No additional library resources are required.

4.2 Computer resources: No additional resources are required.

5. Budget implications:

5.1 Proposed method of staffing: Current staffing is sufficient.

5.2 Special equipment needed: Not needed.

5.3 Expendable materials needed: Not needed.

5.4 Laboratory materials needed: Not needed.

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

Proposal to Create a New Course
(Consent Item)

Contact Person: Indudeep Chhachhi, Email: indudeep.chhachhi@wku.edu
Office phone: 745-2928

1. Identification of proposed course:

- 1.1 Course prefix (subject area) and number: FIN 400
- 1.2 Course title: Personal Financial Planning Practice Management
- 1.3 Abbreviated course title: PFP Practice Management
(maximum of 30 characters or spaces)
- 1.4 Credit hours: 2 Variable credit: no
- 1.5 Grade type: Standard letter grade
- 1.6 Corequisite: FIN 401 Prerequisites: Completion of or current enrollment in FIN 331, FIN 332, and FIN 444. Restricted to B.S. Finance (Financial Planning track) majors and Financial Planning Certificate enrollees.
- 1.7 Course description: Counseling and communication techniques, as well as interviewing strategies for use in financial planning settings. Introduction to regulatory compliance as applied to personal financial planning. Advanced coursework in professional software packages for financial planning and investment portfolio applications. Review of business models and staffing.

2. Rationale:

- 2.1 Reason for developing the proposed course: The Finance Department / Financial Planning Track teaches the learning objectives as required by the Certified Financial Planner Board of Standards, Inc. In discussions with recent graduates and with potential employers of our graduates, the need for greater application of those concepts through the use of technology, which has increasingly revolutionized the preparation and delivery of financial plans, has become apparent. Technology has increasingly impacted the acquisition of data from clients, the planner-client collaboration in the design of financial plans, and the delivery and monitoring of financial planning recommendations. In addition, greater education is desired of our graduates as to the policies and procedures utilized to comply with applicable laws and regulations, given the increased scrutiny of financial planners by both federal and state regulators. The department believes that, given the technological revolution in financial services, greater personal skills development in these areas will enhance the education of our graduates and their attractiveness to employers. Overall, this course will make students better prepared for their careers, and should produce more productive, engaged members of the financial planning community.
- 2.2 Projected enrollment in the proposed course: Based on current enrollment in FIN 450 Financial Plan Development, and the number of declared Finance majors at present,

enrollment is expected to be 20 to 35 students per semester. Students who are not enrolled in either the B.S. Finance (Financial Planning Track) or who have not declared for the Financial Planning Certificate program will not be permitted to enroll in this course. All students in the B.S. Finance (Financial Planning track), and all CFP® Financial Planning certificate students, will be required to take this course.

2.3 Relationship of the proposed course to courses now offered by the department: The use of financial planning software is used, to a limited degree, in the FIN 444 Retirement Planning course, for purposes of a capital needs analysis. The FIN 450 Financial Plan Development course overviews the use of software, but financial planning software is not utilized to develop the major project in that course. However, client relationship management software, portfolio management software, rebalancing software, custodial interfaces, document management, and compliance policies and procedures are not taught in any course. Nor is financial planning software utilized in a collaborative mode with a hypothetical client.

2.4 Relationship of the proposed course to courses offered in other departments:
The Gordon Ford College of Business offers an interdisciplinary Certificate in Advanced Professionalism which focuses on competencies needed for career readiness and professional development for transitioning to the business field, including assessment, exploration and experiential components. The certificate is not required by any majors. It is possible that this proposed course would make students aware of the certificate and feed students into pursuing the certificate.

2.5 Relationship of the proposed course to courses offered in other institutions:
While the proposed course is not required by the Certified Financial Planner Board of Standards, Inc., several leading university undergraduate programs require elements of the course as part of their curriculum. A search of benchmark institutions reveals similar courses being offered, including:

- a) Texas Tech University offers three different 3-semester-credit courses that provide coverage of the content of this proposed course: (1) PFP 4380 - Professional Technology in Personal Financial Planning; (2) PFP 3330 - Communication and Counseling Skills for Financial Planners; and (3) PFP 2333 - Legal and Regulatory Aspects of Personal Financial Planning. All three courses are required in their curriculum for Texas Tech's B.S. in Personal Financial Planning degree program.
- b) The University of Georgia's undergraduate (B.S. Family and Consumer Counseling / financial planning track) program offers two different 3-semester-credit courses that provide coverage of the content of this course: (1) FHCE 3260 Computer Applications for Financial Planning; (2) FHCE 4250/6250 Practice Management in Financial Planning. Both courses are required as part of the curriculum.
- c) Virginia Tech's undergraduate B.S. Finance (Certified Financial Planner Education Track) program offers two different 3-semester-credit courses that provide coverage of some of the content of this course: (1) AAEC 4124 (Client

Relationship Management) (required); and (2) AAEC 4114) Financial Planning Technology and Modeling (elective).

- d) Purdue University's B.S. Financial Counseling and Planning program does not require any specific courses similar to this proposed course. However, Purdue does require CSR48000 Financial Counseling & Planning Internship (2-3 semester credits), during which internship often students would receive exposure to these issues.

No Kentucky universities offer a similar course.

Murray State offers a financial planning program within both its accounting and finance departments that leads to the requirements to sit for the CFP Exam, but no specific courses cover technology and practice management in that curriculum.

Bellarmine University offers an Executive Certificate in Financial Planning program but its courses are limited to the six core courses required by the CFP Board of Standards, Inc., and no courses are specific to the use of technology and practice management.

3. Discussion of proposed course:

3.1 Schedule type: C — Lecture/Lab. Experiential learning using various software in combination with case studies.

3.2 Learning Outcomes:

By the end of this course, Finance (Financial Planning Track) students should be able to

- Apply counseling and communication skills, including data gathering, through the use of software and interpersonal communications, to new client engagements and review and monitoring conferences
- Apply financial plan design and implementation skills, including through a collaborative effort with a client
- Apply knowledge of investments to the creation of investment accounts, their transfer, monitoring of a portfolio, and rebalancing and trading
- Assess the personnel requirements for delivery of financial planning services under different business models, as aided by technology.

3.3 Content outline:

- Client data gathering, including use of technology to assess risk tolerance, gather information on clients' goals, obtain investment portfolio information, and maintain updated information on clients in various formats and using various software and online technology solutions
- Development and delivery of financial planning recommendations, using both client-collaborative and linear methods, and monitoring of progress toward accomplishment of established goals and tasks.

2.3 Relationship of the proposed course to courses now offered by the department: The use of financial planning software is used, to a limited degree, in the FIN 444 Retirement Planning course, for purposes of a capital needs analysis. The FIN 450 Financial Plan Development course overviews the use of software, but financial planning software is not utilized to develop the major project in that course. However, client relationship management software, portfolio management software, rebalancing software, custodial interfaces, document management, and compliance policies and procedures are not taught in any course. Nor is financial planning software utilized in a collaborative mode with a hypothetical client.

2.4 Relationship of the proposed course to courses offered in other departments:

The Gordon Ford College of Business offers an interdisciplinary Certificate in Advanced Professionalism which focuses on competencies needed for career readiness and professional development for transitioning to the business field, including assessment, exploration and experiential components. The certificate is not required by any majors. It is possible that this proposed course would make students aware of the certificate and feed students into pursuing the certificate.

2.5 Relationship of the proposed course to courses offered in other institutions:

While the proposed course is not required by the Certified Financial Planner Board of Standards, Inc., several leading university undergraduate programs require elements of the course as part of their curriculum. A search of benchmark institutions reveals similar courses being offered, including:

- e) Texas Tech University offers three different 3-semester-credit courses that provide coverage of the content of this proposed course: (1) PFP 4380 - Professional Technology in Personal Financial Planning; (2) PFP 3330 - Communication and Counseling Skills for Financial Planners; and (3) PFP 2333 - Legal and Regulatory Aspects of Personal Financial Planning. All three courses are required in their curriculum for Texas Tech's B.S. in Personal Financial Planning degree program.
- f) The University of Georgia's undergraduate (B.S. Family and Consumer Counseling / financial planning track) program offers two different 3-semester-credit courses that provide coverage of the content of this course: (1) FHCE 3260 Computer Applications for Financial Planning; (2) FHCE 4250/6250 Practice Management in Financial Planning. Both courses are required as part of the curriculum.
- g) Virginia Tech's undergraduate B.S. Finance (Certified Financial Planner Education Track) program offers two different 3-semester-credit courses that provide coverage of some of the content of this course: (1) AAEC 4124 (Client Relationship Management) (required); and (2) AAEC 4114) Financial Planning Technology and Modeling (elective).
- h) Purdue University's B.S. Financial Counseling and Planning program does not require any specific courses similar to this proposed course. However, Purdue does require CSR48000 Financial Counseling & Planning Internship (2-3 semester credits), during which internship often students would receive exposure to these issues.

No Kentucky universities offer a similar course.

Murray State offers a financial planning program within both its accounting and finance departments that leads to the requirements to sit for the CFP Exam, but no specific courses cover technology and practice management in that curriculum.

Bellarmine University offers an Executive Certificate in Financial Planning program but its courses are limited to the six core courses required by the CFP Board of Standards, Inc., and no courses are specific to the use of technology and practice management.

3. Discussion of proposed course:

- 3.1 Schedule type: C—Lecture/Lab: Combination of formal presentation and experimental study.
- 3.2 Learning Outcomes:

By the end of this course, Finance (Financial Planning Track) students should be able to

Identify situations that require consideration of compliance with various laws and regulations, and policies and procedures adopted thereunder

- Apply counseling and communication skills, including data gathering, through the use of software and interpersonal communications, to new client engagements and review and monitoring conferences
- Apply financial plan design and implementation skills, including through a collaborative effort with a client
- Apply knowledge of investments to the creation of investment accounts, their transfer, monitoring of a portfolio, and rebalancing and trading
- Assess the personnel requirements for delivery of financial planning services under different business models, as aided by technology.

- 3.3 Content outline:

- Client data gathering, including use of technology to assess risk tolerance, gather information on clients' goals, obtain investment portfolio information, and maintain updated information on clients in various formats and using various software and online technology solutions
- Development and delivery of financial planning recommendations, using both client-collaborative and linear methods, and monitoring of progress toward accomplishment of established goals and tasks.
- Legal and regulatory requirements applicable to the acquisition of new clients and the provision of services to clients, including a review of typical compliance policies and procedures, and restrictions upon conduct
- Investment securities trading, portfolio reporting, and portfolio rebalancing, as aided through the use of various technologies

Gordon Ford College of Business
Finance Department
Proposal to Make Multiple Revisions to a Course
(Consent Item)

Contact Person: Indudeep Chhachhi
Email: indudeep.chhachhi@wku.edu
Office phone: 745-2928

1. Identification of course:

- 1.1 Current course prefix (subject area) and number: FIN 499
- 1.2 Course title: Senior Assessment

2. Revise course catalog listing:

- 2.1 Current course catalog listing: *Prerequisites: Senior standing, enrolled in last regular semester of coursework (summer graduates would take this course in the spring semester prior to completion.)* This course is designed to be a tool in the senior assessment process. It is designed to provide a means of conducting assessment of Finance majors. The course will seek to measure knowledge of basic ideas and concepts necessary of Finance graduates. Students will also be introduced to educational and career opportunities and professional certification programs available in Finance. **Course Fee**
- 2.2 Proposed course catalog listing: *Prerequisites: Senior standing, enrolled in last regular semester of coursework (summer graduates would take this course in the spring semester prior to completion.)* This course is designed to be a tool in the senior assessment process. It is designed to provide a means of conducting assessment of Finance majors. The course will seek to measure knowledge of basic ideas and concepts necessary of Finance graduates. **Course Fee**
- 2.3 Rationale for revision of course catalog listing: A new course is being offered, FIN 300, in which students will be introduced to educational and career opportunities and professional certification programs in Finance.

3. Revise course credit hours:

- 3.1 Current course credit hours: 1
- 3.2 Proposed course credit hours: 0 to 1
- 3.3 Rationale for revision of course credit hours: Students must earn 120 credit hours to graduate. The current catalog provides one required hour in the finance major, but the creation of FIN 300 provides the hour needed to meet the requirement. Students under the current catalog will earn one credit hour for FIN 499. Future students will earn one hour credit from FIN 300 and zero credit hours from FIN 499. Students will be required to take both.

4. Revise grade type:

- 4.1 Current grade type: Standard Letter
- 4.2 Proposed grade type: Pass/Fail

4.3 Rationale for revision of grade type: We are changing the course from one credit hour to zero credit hours and, therefore, wish to change grading system to the more appropriate pass/fail.

5. **Proposed term for implementation:** Winter 2018

6. **Dates of prior committee approvals:**

Department/ Unit

Proposal to Revise A Program
(Consent Item)**

Contact Person: Indudeep Chhachhi, indudeep.chhachhi@wku.edu, 745-2928

1. Identification of program:

- 1.1 Current program reference number: 664P (seeking admission)
664 (officially admitted)
- 1.2 Current program title: Major in Finance
- 1.3 Credit hours: 73/79

2. Identification of the proposed program changes:

- A. Admissions standards for the department are changed to reflect that FIN 300 must be completed prior to admission to the finance program.
- B. The department has developed a new one-hour course, FIN 300, which is required for all Finance majors. FIN 300, Career Readiness in Finance, focuses on and expands on career readiness content currently included in FIN 499, Senior Assessment.
- C. The department has developed a new two-hour course, FIN 400, which is required for all B.S. Finance (Financial Planning track only) majors and Financial Planning Certificate enrollees. FIN 400, Personal Financial Planning Practice Management, is a new two-hour required course. This course, along with FIN 401, replaces the requirement of a 3-hour business elective.
- D. The department has developed a new one-hour course, FIN 401, which is required for all B.S. Finance (Financial Planning track only) majors and Financial Planning Certificate enrollees. FIN 401, Personal Financial Planning Practice Management Lab, is a new one-hour required course. This course, along with FIN 400, replaces the requirement of a 3-hour business elective.

3. Detailed program description:

Current Program	Proposed Program
<p>The undergraduate finance program offers two areas of concentration within the major: 1) Financial Management and (2) Financial Planning. Finance majors must earn a minimum grade point average of 2.0 in 300 and 400 level finance courses. In addition, finance majors must earn a “C” or better in FIN 330 and FIN 332. All finance majors will be required to participate in an assessment process in FIN 499 prior to graduation.</p>	<p>The undergraduate finance program offers two areas of concentration within the major: 1) Financial Management and (2) Financial Planning. Finance majors must earn a minimum grade point average of 2.0 in 300 and 400 level finance courses. In addition, finance majors must earn a “C” or better in FIN 330 and FIN 332. All finance students must complete FIN 300 prior to admission to the finance program.</p>

<p>The financial management concentration requires 73 hours of professional and elective courses and leads to a Bachelor of Science degree. No minor or second major is required or prohibited.</p> <p>The Financial Management concentration deals with the acquisition and use of funds to maximize the value of the firm. Financial managers make decisions about alternative sources and uses of funds. Proper financial management within the firm will help the business to provide better products at reasonable prices to its customers and greater returns to the investors who supply the capital needed to form and then operate the business. Students must take the following courses: ACCT 200, ACCT 201, CIS141, CIS 243, ECON 202, ECON 203, ECON 206, FIN 330, MKT 220, MGT 200, MGT 210, MGT 314, ENT 496 or MGT 498, ECON 307, FIN 332, FIN 433, FIN 436, FIN 437, FIN 438, FIN 439 or FIN 449 and FIN 499. Students must take 3 additional hours from either FIN 435 or MKT 323, MKT 325 or ACCT 300, ACCT 330, ACCT 430, ACCT 440. In addition, students must take 6 hours of upper level finance electives as well as an additional 3 hours of business electives.</p> <p>The financial planning concentration requires 79 hours of professional and elective courses and leads to a Bachelor of Science degree. The financial planning concentration deals with the process of developing comprehensive financial plans for individuals. Financial planners help individuals determine financial goals and objectives and the best strategies for obtaining these goals. The rapid growth of multi-income families in the U.S. has placed more and more people in a position of need to apply sophisticated financial planning techniques to their personal economic affairs. As a result, one of the fastest growing career paths in the financial services industry is financial planning, and the Certified Financial Planner® (CFP) designation has become the most widely recognized financial planning credential among consumers.</p>	<p>All finance majors will be required to participate in an assessment process in FIN 499 prior to graduation. ---	--

4. Rationale for the proposed program change:

- The lists of required courses for both the Financial Management and Financial Planning concentrations have been changed to reflect the addition of the new required course, FIN 300.
- Requirements for admission to the Finance Program now include the new FIN 300 course. This is to encourage students to take FIN 300 prior to taking an extensive number of upper division finance classes.
- The list of required courses for the Financial Planning concentration has been changed to reflect the addition of FIN 400 and 401, and the deletion of another required business elective.
- There are four additions to correct punctuation in the current catalog description.
 - A colon has been added prior to the list of courses for the financial planning concentration to be consistent with punctuation prior to the list of courses for the financial management concentration.

- A period has been added to the end of the description of item 3 in the list of requirements for a student to be admitted to Finance Program. Item 4 is a stand-alone item in the list.
- A comma after FIN 449 in the list of required courses for both the management and financial planning major
- The use of “TM” has been changed to become a superscript, as has “®,” and a comma has been deleted after the phrase “(with flame logo)®”.
- Changes have been made to reflect the move of the Certified Financial Planner Board of Standards, Inc. from Denver, CO to Washington, DC.
- A change has been made to reflect that WKU’s Financial Planning Program is one of only three university programs in the State of Kentucky, not four.

5. **Proposed term for implementation and special provisions (if applicable):** Fall 2017

6. **Dates of prior committee approvals:**

Department/ Unit Finance	<u>January 9, 2017</u>
Gordon Ford College of Business	<u>January 25, 2017</u>
Undergraduate Curriculum Committee	<u>02/23/2017</u>
University Senate	<u>_____</u>

**College of Health and Human Services
Public Health
Proposal to Revise Course Prerequisites/Corequisites
(Information Item)**

Contact Person: Jan Hunt-Shepherd, jan.hunt-shepherd@wku.edu, 270-745-3548

- 1. Identification of course:**
 - 1.1 Course prefix and number: HIM 230
 - 1.2 Course title: Computer Systems and Applications in Health Information Management

- 2. Current prerequisites/corequisites/special requirements:**
Prerequisite: HIM 100 and CSCI 145C

- 3. Proposed prerequisites/corequisites/special requirements:**
Prerequisite: HIM 100 and CSCI 145C or CIS 141

- 4. Rationale for the revision of prerequisites/corequisites/special requirements:**
Most HIM students are taking CIS 141 instead of CSCI 145C and many programs across campus requiring an introductory computer course accept either CIS 141 or CSCI 145C. Making this change will reduce completion of iCAP exception forms.

- 5. Effect on completion of major/minor sequence:** None

- 6. Proposed term for implementation:** Fall 2017

- 7. Dates of prior committee approvals:**

Public Health Department	12/1/2016

Proposal Date: September 26, 2016

**College of Health & Human Services
Family & Consumer Sciences
Proposal to Revise Course Prerequisites/Corequisites
(Information Item)**

Contact Person: Sheila Flener, 745-4105, sheila.flener@wku.edu

- 1. Identification of course:**
 - 1.1 Course prefix and number: IDFM 201
 - 1.2 Course title: Interior Design Studio I

- 2. Current prerequisites/co-requisites/special requirements:**

Pre-requisites: IDFM 120
Co-requisites: IDFM 243 and portfolio review for advising strengths and weaknesses.

- 3. Proposed prerequisites/co-requisites/special requirements:**

Co-requisites: IDFM 120 and IDFM 243

- 4. Rationale for the revision of prerequisites/co-requisites/special requirements:**

Adding IDFM 120 as a Co-requisite will allow students transferring to WKU to take studio courses sooner. Taking these courses together should have no effect on students being successful in all three. Topnet cannot verify portfolio review.

- 5. Effect on completion of major/minor sequence:** None

- 6. Proposed term for implementation:** Fall 2017

- 7. Dates of prior committee approvals:**

Department of Family & Consumer Sciences	10-28-2016

- 1. Identification of course:**
 - 1.1 Course prefix and number: IDFM 243
 - 1.2 Course title: Materials & Finishes for Interior Design

- 2. Current prerequisites/co-requisites/special requirements:**

Pre-requisite: IDFM 120 or permission of instructor
Co-requisite: IDFM 201

- 3. Proposed prerequisites/co-requisites/special requirements:**

Pre-requisite: None
Co-requisite: IDFM 201

- 4. Rationale for the revision of prerequisites requirements:**

The content of IDFM 120, sketching and principles and elements of design is not required to be successful in selecting materials & finishes.

- 5. Effect on completion of major/minor sequence:** None

- 6. Proposed term for implementation:** Fall 2017

- 7. Dates of prior committee approvals:**

(Information Item)**

Contact Person: Sheila Flener, 745-4105, sheila.flener@wku.edu

1. Identification of course:

- 1.1 Course prefix and number: IDFM 344
- 1.2 Course title: Digital Rendering for Interiors

2. Current prerequisites/corequisites/special requirements:

Pre-requisites: IDFM 222
Co-requisites: IDFM 300

3. Proposed prerequisites/corequisites/special requirements:

Pre-requisites: IDFM 222 & 300
Co-requisites: IDFM 301

4. Rationale for the revision of prerequisites/corequisites/special requirements:

IDFM 344 is currently listed as a Co-requisite for IDFM 300, students need the content of IDFM 222 before taking IDFM 344.

IDFM 222 is a co-requisite for IDFM 300, students need the content of IDFM 222 before they can take IDFM 344

5. Effect on completion of major/minor sequence: None

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

Contact Person: Kacy Harris, kacy.harris@wku.edu , 270-780-2510

- 1. Identification of course:**
 - 1.1 Current course prefix and number: NUR 157
 - 1.2 Course title: Medical Surgical Nursing I Skills Lab
- 2. Current prerequisites/corequisites/special requirements:** Prerequisites: NUR 104, 105, 106. Prerequisite or corequisite: NUR 155, CHEM 109.
- 3. Proposed prerequisites/corequisites/special requirements:** Prerequisites: NUR 104, 105, 106, 150, BIOL 131, PSY/PSYS 220. Prerequisite or corequisite: NUR 155, BIOL 207
- 4. Rationale for the revision of prerequisites/corequisites/special requirements:**

CHEM 109 Chemistry for Health Science is not a standard course for associate degree nursing programs and students can be successful in nursing without having a chemistry course. As chemistry is not required by other nursing programs, this revision increases program competitiveness. CHEM 109 has already been removed from the WKU RN to BSN program. Removal of chemistry from the ASN program maintains colonnade requirements for an associate degree program and will allow students flexibility when selecting the second natural science colonnade requirement for a future baccalaureate degree. With removal of CHEM 109, BIOL 207 Microbiology was moved to the second semester in the curriculum plan to allow students an additional semester to apply knowledge learned in microbiology to nursing classroom/clinical experiences and to evenly disperse credit hours across the program. Addition of NUR 150 as a prerequisite is included for clarity as previously traditional students did not take NUR 150 and therefore it was not listed in the curriculum plan. Since the traditional ASN Program is being phased out and only LPN to ASN students will be completing the ASN Program, the addition of NUR 150 to the curriculum plan provides clarity. Inclusion of BIOL 131 and PSY/PSYS 220 was an oversight during the last curriculum revision and should be added as a prerequisite to NUR 157 for clarity.
- 5. Effect on completion of major/minor sequence:** None
- 6. Proposed term for implementation:** Fall 2017

Proposal to Revise Course Prerequisites/Corequisites
(Information Item)**

Contact Person: Kacy Harris, kacy.harris@wku.edu , 270-780-2510

- 1. Identification of course:**
 - 1.1 Current course prefix and number: NUR 254
 - 1.2 Course title: Pediatric Nursing

- 2. Current prerequisites/corequisites/special requirements:** Prerequisites: NUR 208, 209, 215, 216. Prerequisites or corequisites: SOCL 100, MATH 109 or MATH 116, Arts and Humanities (AH) elective.

- 3. Proposed prerequisites/corequisites/special requirements:** Prerequisites: NUR 208, 209, 215, 216. Prerequisites or corequisites: Quantitative Reasoning (QR) course, Arts and Humanities (AH) elective.

- 4. Rationale for the revision of prerequisites/corequisites/special requirements:**

Revision of the math listing allows for any math course meeting Quantitative Reasoning colonnade requirement simplifying the transfer evaluation process. In addition, the revision continues to meet the quantitative reasoning colonnade requirement for an associate degree and a future baccalaureate degree. SOCL 100 Introductory Sociology is not a standard course for associate degree nursing programs and students can be successful in nursing without having an introductory sociology course. As sociology is not required by other nursing programs, this revision increases program competitiveness. Sociology has already been removed from the WKU RN to BSN program. Removal of sociology from the ASN program continues to meet the social and behavioral colonnade requirement for an associate degree program and a future baccalaureate degree.

Removal of chemistry from the ASN program maintains colonnade requirements for an associate degree program and will allow students flexibility when selecting the second natural science colonnade requirement for a future baccalaureate degree. With removal of CHEM 109, BIOL 207 Microbiology was moved to the second semester in the curriculum plan to allow students an additional semester to apply knowledge learned in microbiology to nursing classroom/clinical experiences and to evenly disperse credit hours across the program. Addition of NUR 150 as a prerequisite is included for clarity as previously traditional students did not take NUR 150 and therefore it was not listed in the curriculum plan. Since the traditional ASN Program is being phased out and only LPN to ASN students will be completing the ASN Program, the addition of NUR 150 to the curriculum plan provides clarity. Inclusion of BIOL 131 and PSY/PSYS 220 was an oversight during the last curriculum revision and should be added as a prerequisite to NUR 165 for clarity.
- 4.4 Effect on completion of major/minor sequence: No change.

5. Revise course catalog listing: N/A

6. Revise course credit hours:

6.1 Current course credit hours: 2.5 credit hours

6.2 Proposed course credit hours: 3 credit hours

6.3 Rationale for revision of course credit hours: Mental health content is considered a specialty course in nursing. Both associate and baccalaureate nursing students take the same licensure exam and therefore need the same specialty content. As a result of the transition away from the traditional ASN Program, specialty course faculty will teach both ASN and BSN mental health course sections. Increasing the NUR 165 Mental Health Nursing number of hours from 2.5 to 3 credit hours will provide consistency with the BSN mental health nursing course NURS 343.

7. Revise grade type: N/A

8. Proposed term for implementation: Winter 2018

9. Dates of prior committee approvals:

- 1. Identification of course:**
 - 1.1 Current course prefix and number: NUR 166
 - 1.2 Course title: Mental Health Nursing Clinical

- 2. Revise course title: N/A**

- 3. Revise course number: N/A**

- 4. Revise course prerequisites/corequisites/special requirements:**
 - 4.1 Current prerequisites/corequisites/special requirements: Prerequisites: NUR 104, 105, 106. Prerequisite or corequisite: NUR 165, CHEM 109.
 - 4.2 Proposed prerequisites/corequisites/special requirements: Prerequisites: NUR 104, 105,106, 150, BIOL 131, PSY/PSYS 220. Prerequisite or corequisite: NUR 165, BIOL 207
 - 4.3 Rationale for revision of course prerequisites/corequisites/special requirements: CHEM 109 Chemistry for Health Science is not a standard course for associate degree nursing programs and students can be successful in nursing without having a chemistry course. As chemistry is not required by other nursing programs, this revision increases program competitiveness. CHEM 109 has already been removed from the WKU RN to BSN program. Removal of chemistry from the ASN program maintains colonnade requirements for an associate degree program and will allow students flexibility when selecting the second natural science colonnade requirement for a future baccalaureate degree. With removal of CHEM 109, BIOL 207 Microbiology was moved to the second semester in the curriculum plan to allow students an additional semester to apply knowledge learned in microbiology to nursing classroom/clinical experiences and to evenly disperse credit hours across the program. Addition of NUR 150 as a prerequisite is included for clarity as previously traditional students did not take NUR 150 and therefore it was not listed in the curriculum plan. Since the traditional ASN Program is being phased out and only LPN to ASN students will be completing the ASN Program, the addition of NUR 150 to the curriculum plan provides clarity. Inclusion of BIOL 131 and PSY/PSYS 220 was an oversight during the last curriculum revision and should be added as a prerequisite to NUR 166 for clarity.
 - 4.4 Effect on completion of major/minor sequence: No change.

- 5. Revise course catalog listing: N/A**

6. Revise course credit hours:

6.1 Current course credit hours: 1.5 credit hours

6.2 Proposed course credit hours: 1 credit hour

6.3 Rationale for revision of course credit hours: Mental health content is considered a specialty course in nursing. Both associate and baccalaureate nursing students take the same licensure exam and therefore need the same specialty content. As a result of the transition away from the traditional ASN Program, specialty course faculty will teach both ASN and BSN mental health course sections. Increasing the NUR 166 Mental Health Nursing Clinical number of hours from 1.5 to 1 credit hour will provide consistency with the BSN mental health nursing course NURS 344.

Proposal to Create a New Course
(Consent Item)**

Contact Person: Jan Hunt-Shepherd, jan.hunt-shepherd@wku.edu, 270-745-3548

1. Identification of proposed course:

- 1.1 Course prefix and number: HIM 330
- 1.2 Course title: Electronic Health Record Systems
- 1.3 Abbreviated course title: EHR Systems
- 1.4 Credit hours: 3 hours Variable credit: No
- 1.5 Grade type: 1
- 1.6 Prerequisites: HIM 100, HCA 340, CD 280, NUR 105, SWK 205 or other introductory health profession course approved by instructor.
- 1.7 Course description: Utilization, application, analysis, and evaluation of an electronic health record system for data collection, communication, storage, reporting, and exchange of health information.

2. Rationale:

- 2.1 Reason for developing the proposed course: Course is being developed as a course in the Health Informatics Certificate, as a course in the baccalaureate degree in Health Information Management and as an elective for other health profession programs. The Health Information Technology for Economic and Clinical Health Act of 2009 (HITECH Act) encourages the use of an electronic health record in health care settings and recommends that universities introduce clinical information technology into health professionals' curriculum. In March 2016, "9 out of 10 hospitals eligible for Medicare and Medicaid EHR Incentive Program are meaningfully using certified health IT" (<http://dashboard.healthit.gov/quickstats/quickstats.php>). This course allows health students to work within an electronic health record prior to graduating and working in health care settings.
- 2.2 Projected enrollment in the proposed course: 15-20 students per semester taught. It is expected that students from both within and outside of the department will enroll in this course based on course content. Other programs have shown interest in the course. Projection based on initial enrollment figures in HIM program for current academic year.
- 2.3 Relationship of the proposed course to courses now offered by the department: HIM 230- Computer Applications in HIM provides a general overview of the electronic health record and other HIM computer applications. HCA 446- Health Care Informatics and HCA 447- Information Systems Laboratory focus on management informatics. Course HIM 330 differs from these courses by providing a full semester of hands-on activities in an electronic health record.
- 2.4 Relationship of the proposed course to courses offered in other departments: NURS 405- Nursing Informatics is limited to nursing students. Other nursing

courses also utilize data entry into an electronic health record but the electronic health record is not the primary focus of the nursing courses.

2.5 Relationship of the proposed course to courses offered in other institutions: Designated benchmark institutions do not offer CAHIIM-accredited programs in Health Information Management except for Illinois State University and East Carolina University. Other institutions that do offer CAHIIM accredited degree programs in HIM at the baccalaureate degree level must offer one or more courses with specific electronic health record emphasis. This content is covered in a specific course at the following institutions:

- Alabama State University
 - HIM 452 Application & Analysis of Electronic Health Record
- Charter Oak State College
 - HIM 320 Electronic Health Records and Health Information Exchange
- CUNY School of Professional Studies
 - HIM 465 Electronic Health Records
- Pennsylvania College of Technology
 - HIT 410- Management of Electronic Health Records Systems
- Rasmussen College
 - HIM 3522 Electronic Health Record Application
- Rutgers School of Health Professions
 - BINF 4311 Electronic Health Records
- Saint Louis University
 - HIM 4610 Electronic Health Systems Management
- Southern University of New Orleans
 - HIMS 310 and HIMS 310L Electronic Health Records
- Southwestern Oklahoma State University
 - HIM 3122 Introduction to Electronic Health Records
 - HIM 3123 Advanced Electronic Health Records
- Stephens College
 - HIA 375 Electronic Health Record Systems
- SUNY Polytechnic Institute
 - HIM 440 Electronic Health Records
- Temple University
 - HIM 3203 Electronic Health Record Systems

3. Discussion of proposed course:

3.1 Schedule type: C- Lecture/Lab

3.2 Learning Outcomes:

- Understand what an EHR is, including the various features and functions found in an EHR.
- Demonstrate skill to document timely and efficiently in the EHR.
- Evaluate examples of usability in the EHR system.
- Utilize evaluate, and recommend technology for data collection, communication, storage, analysis and reporting of health information.
- Analyze the implementation of the EHR in the quality improvement process.
- Assess systems capabilities to meet regulatory requirements.
- Utilize critical thinking and problem solving skills.

3.3 Content outline:

- Electronic Health Record (EHR) Orientation and Essential Skills and Usability
- Using the Tools and Resources in EHR
- Health Information Terminology
- Introducing HITECH and the History of EHRs
- Health Information Exchange
- Introduction to Privacy, Security and Confidentiality in the EHR
- Release of Information & Accounting of Disclosures
- Commercial EHR Vendors
- Communication within the EHR
- Quality Improvement Utilizing the EHR
- EHR Documentation Evaluation
- Understanding TJC's Tracer Methodology
- Structured and Unstructured Data
- Implementing Clinical Decision Support
- Clinical Decision through Orders
- Data Entry
- Registering a Patient and Adding Orders
- CMS 1500 Billing Form
- UHDDS and the EHR
- Reporting in the EHR
- Retrieval of Data
- Introduction to Chart Deficiencies
- Analyzing for Chart Deficiencies
- Hospital Inpatient Quality Measures

3.4 Student expectations and requirements:

Students will learn to use an electronic health record for data entry, release of information, data query, and chart review.

3.5 Tentative texts and course materials:

- Electronic Health Records: A Practical Guide for Professionals and Organizations, Amatayakul, ISBN: 978-1-58426-003-5, American Health Information Management Association, 2013
- Neehr Perfect Subscription to the Electronic Health Record (Vista used by VA Hospitals)

4. Resources:

4.1 Library resources: Adequate

4.2 Computer resources: Adequate

5. Budget implications:

5.1 Proposed method of staffing: Currently no additional resources are needed to offer the course. The course will be staffed as needed by current faculty on a rotational basis during the fall or spring semester.

5.2 Special equipment needed: None

5.3 Expendable materials needed: None

5.4 Laboratory materials needed: None

6. Proposed term for implementation: Summer 2017

7. Dates of prior committee approvals:

Public Health Department

12/01/2016

CHHS Undergraduate Curriculum Committee

1/27/2017

Undergraduate Curriculum Committee

02/23/2017

**College of Health and Human Services
Public Health
Proposal to Create a New Course
(Consent Item)**

Contact Person: Jan Hunt-Shepherd, jan.hunt-shepherd@wku.edu, 270-745-3548

1. Identification of proposed course:

- 1.1 Course prefix and number: HIM 421
- 1.2 Course title: Health Information Leadership and Management
- 1.3 Abbreviated course title: Health Info Leadership/Mgmt
(maximum of 30 characters or spaces)
- 1.4 Credit hours: 3 hours Variable credit: No
- 1.5 Grade type: 1
- 1.6 Prerequisites: Junior standing in HIM BS program
- 1.7 Course description: Application, evaluation, and creation of operational, managerial, and strategic planning for health information including project management, budgeting, human resources, professional development, and other administrative functions.

2. Rationale:

- 2.1 Reason for developing the proposed course: Course is being developed as a core course in the baccalaureate degree in Health Information Management in response to the need for an upper level Health Information Management Leadership and Management course. With the need for curriculum changes to increase healthcare analytics and electronic health record application courses, two other management courses, HCA 342 Human Resources and HCA 401 Healthcare Financial Management, are being deleted from HIM curriculum. The new HIM 421 course will include basic human resource management and financial management topics along with leadership and management of health information management systems.
- 2.2 Projected enrollment in the proposed course: 15-20 students per semester taught. Projection based on initial enrollment figures in HIM program for current academic year.
- 2.3 Relationship of the proposed course to courses now offered by the department: Currently HIM baccalaureate students take HCA 340- Health Care Organization and Management, HCA 342- Human Resources Management for Healthcare Managers and HCA 401 Fundamentals of Health Care Financial Management. Due to the mandated curriculum changes from CAHIIM in fall 2017 it is necessary to delete these three courses from the HIM Program to make room for additional HIM courses. By doing this it creates the need for a new HIM course that combines some of the content originally obtained through the three HCA courses. The HIM 421 course focuses on not only general management practices but also on these specific needs related to Health Information Management. In addition to the HCA courses there is a lower level course, HIM 221 Health Information and Quality Management that touches on management applications.

- 2.4 Relationship of the proposed course to courses offered in other departments: MGT 210 Organization and Management, MGT 311 Human Resource Management, BUS 210C Organization and Management, and BUS 257C Management of Human Resources all teach components of management. This differs from HIM 421 in that HIM 421 includes all basic management components and focuses on needs specific to Health Information Management.
- 2.5 Relationship of the proposed course to courses offered in other institutions: Designated benchmark institutions do not offer CAHIIM-accredited programs in Health Information Management except for Illinois State University and East Carolina University listed below. Other institutions that do offer CAHIIM accredited degree programs in HIM at the baccalaureate degree level must offer one or more courses with specific electronic health record emphasis. This content is covered in a specific course at the following institutions:
- Charter Oak State College
 - HIM 305 Health Information Services Management Leadership
 - The College of St. Scholastica
 - HIM 4315 Management Tools and Strategies
 - CUNY School of Professional Studies
 - HIM 365 Management of Health Information Organizations
 - Dakota State
 - HIM 257 Management & Supervision of HIM
 - East Carolina University
 - HSMA 3050: Leadership in Health Care
 - HSMA 4050: Human Resource Management for Health Care Organizations
 - HIMA 4153: Management of a Health Information Services Department
 - Illinois State University
 - HSC 320 Organization and Management of Health Information Systems
 - Pennsylvania College of Technology
 - HIT 490 Management of Health Information Services
 - Rasmussen College
 - HIM 2304 Management of Health Information Services
 - Rutgers School of Health Professions
 - BINF 4200 Financial Concepts for HIM
 - Regis University
 - HIM 480 Administration of HIM Services
 - Resurrection University
 - HIM 3105 Human Resource Management in Healthcare
 - HIM 4600 Leadership in HIM
 - Southern University of New Orleans
 - HIMS 380 Human Resource Mgmt for Healthcare Orgs.
 - HIMS 440 Financial Management for the Health Information Manager
 - Stephens College
 - HIA 401 Management of Health Information Administration
 - SUNY Polytechnic Institute
 - HIM 450 Health Information Services Management
 - Temple University
 - HIM 3107 Health Information Management Leadership and Strategic Management

- HIM 4104 Health Information Management Operations Management
- HIM 3297 Health Information Management Human Resource Management
- Texas State University
 - HIM 4390 Contemporary Leadership Principles in HIM
 - HIM 4401 Organization Management of Health Information Technology
- The University of Kansas
 - HEIM 671 Strategic Leadership in HIM (undergraduate course)

3. Discussion of proposed course:

3.1 Schedule type: C- Lecture/Lab

3.2 Learning Outcomes:

- Analyzing HIM body of knowledge in preparation for managing an HIM Department
- Applying management roles, functions, and skills to the profession of health information management
- Evaluating leadership effectiveness
- Thinking strategically in leading change in health information technology
- Developing tools in human resource management activities, such as position descriptions, performance standards, staffing structures, and work schedules
- Creating health information training and development for HIM staff and health information users
- Creating effective and efficient health information policies and procedures
- Developing and maintaining HIM operating and capital budgets
- Facilitating project management initiatives of health information
- Negotiating effectively
- Managing health information management contracts

3.3 Content outline:

- Health Information Management Practice
- Management of Health Information Services
- Leadership Theory and Change Management
- Human Resources Management
- Training and Development for HIM Staff
- Financial Management
- Strategic Thinking and Leading Change for HIM
- Project Management
- Contract Management for enterprise HIM

3.4 Student expectations and requirements:

Students will learn to manage a health information management department.

3.5 Tentative texts and course materials:

Health Information Management Concepts, Principles, and Practice, Latour, Maki, Oachs, 4th ed, ISBN# 9781584263777, American Health Information Management Association, 2013

4. Resources:

- 4.1 Library resources: Adequate
- 4.2 Computer resources: Adequate

5. Budget implications:

- 5.1 Proposed method of staffing: Currently no additional resources are needed to offer the course. The course will be staffed as needed by current faculty on a rotational basis during the fall or spring semester.
- 5.2 Special equipment needed: None
- 5.3 Expendable materials needed: None
- 5.4 Laboratory materials needed: None

6. Proposed term for implementation: Fall 2017

7. Dates of prior committee approvals:

**College of Health and Human Services
Public Health
Proposal to Create a New Course
(Consent Item)**

Contact Person: Jan Hunt-Shepherd, jan.hunt-shepherd@wku.edu, 270-745-3548

1. Identification of proposed course:

- 1.1 Course prefix and number: HIM 430
- 1.2 Course title: Health Data Management and Analytics
- 1.3 Abbreviated course title: Health Data Mgmt & Analytics
- 1.4 Credit hours: 3 hours Variable credit: No
- 1.5 Grade type: 1
- 1.6 Prerequisites: HIM 330 and one of the following: HIM 230, HCA 446 and 447, CIT 350, BDAN 330, or INS 272C.
- 1.7 Course description: Acquisition, analysis, display, interpretation, reporting, transformation, and management of healthcare data to respond to needs, trends, and changes in clinical practice, management, health care quality, regulations, legislation, accrediting bodies and marketplace.

2. Rationale:

- 2.1 Reason for developing the proposed course: Course is being developed as a core course in the baccalaureate degree in Health Information Management and for the proposed Health Informatics Certificate in response to the industry needs for healthcare data analytics professionals. Healthcare is becoming increasingly data driven. Increased education will allow for more job opportunities for graduates.
- 2.2 Projected enrollment in the proposed course: 15-20 students per semester taught. It is expected that students from within the department will enroll in this course based on course content. Projection based on initial enrollment figures in HIM program for current academic year.
- 2.3 Relationship of the proposed course to courses now offered by the department: HIM 230 Computer Systems and Applications in Health Information Management is an associate degree course that offers the students a broad overview and hands-on instruction of software and computer applications within healthcare for the Health Information Management professional. HCA 446 Healthcare Informatics and HCA 447 Information Systems Lab offers a broad overview of information software and hands-on instruction in using basic software.
- 2.4 Relationship of the proposed course to courses offered in other departments: HIM 430 is uniquely different from the following courses because of the focus specifically on analytics of health care data which is rapidly becoming a sought after job skill in health care. Students may choose one of the following as a prerequisite to HIM 430: CIT 350 Database Administration I, BDAN 310 Business Data Analytics, BDAN 330 Structured Data Analysis, or INS 272C Database Management. Both CIT 350 and BDAN 330 focus on database

management which is not a focus of the HIM 430 course. Other database courses at WKU include: INFO 336 Database and Information Retrieval, GISC 317 Geographic Information Systems and GISC 443 Geographic Information Systems Databases.

2.5 Relationship of the proposed course to courses offered in other institutions: Designated benchmark institutions do not offer CAHIIM-accredited programs in Health Information Management except for Illinois State University listed below and East Carolina University. Other institutions that do offer CAHIIM accredited degree programs in HIM at the baccalaureate degree level must offer one or more courses with specific healthcare analytics emphasis. This content is covered in a specific course at the following institutions:

- Augusta University
 - HINF 4212 Data Management and Analysis
- Clarkson College
 - HM 260 Data Management and Analytics
 - HM 460 Advanced Data Management and Analytics
- College of St. Scholastica
 - HIM 4415 Health Data Analytics
- CUNY School of Professional Studies
 - HIM 362 Healthcare Data Analysis
- Dakota State
 - HIM 380 Healthcare Data Analysis
- Davenport University
 - HINT Data Analysis and Research in Health Information
- Illinois State University
 - HSC 204.02 Health Data Analysis
- Louisiana Technical University
 - HIM 350 Data Management in Healthcare
- Pennsylvania College of Technology
 - HIT 325 Health Care Data Analysis and Quality Management
- Rasmussen College
 - HIM 4360 Health Data Management
- Resurrection University
 - HIM 4525 Data Analysis and Lab
- Rutgers School of Health Professions
 - BINF 4520 Health Analytics
- Saint Louis University
 - HIM 3200 Health Data Management
- Southwestern Oklahoma State University
 - HIM 4073 Health Data Analysis
- SUNY Polytechnic Institute
 - HIM 220 Data Management and Analysis for HIM
- Texas State
 - HIM 3311 Health Informatics, Analytics, and Data Use
- Temple University
 - HIM 4121 Healthcare Data Analytics
- The University of Kansas
 - HEIM 676 Health Care Analytics (this is an undergraduate course)

- University of Illinois at Chicago
 - HIM 337 Analysis of Health Care Data

3. Discussion of proposed course:

3.1 Schedule type: C- Lecture/Lab

3.2 Learning Outcomes:

- Understand how health data analytics assists in decision making, in meeting regulatory, legislative, and accrediting body standards, and in improving health care.
- Identify, collect, and analyze Big Data in healthcare
- Utilize health data analytics to improve the efficiency and effectiveness of healthcare.
- Access and analyze health data from open sources (HRSA, ONC, CMS).
- Identify documentation and data requirements for healthcare.
- Develop policies and standards governing data.

3.3 Content outline:

- Healthcare Improvement Using Analytics
- Fundamentals of Healthcare Analytics
- Developing an Analytics Strategy to Drive Change
- Data Quality and Governance in Healthcare
- Working with Data
- Usability and Presentation of Information
- Advanced Analytics in Healthcare
- Becoming an Analytical Healthcare Organization

3.4 Student expectations and requirements:

Students will learn to analyze health data to improve the efficiency and effectiveness of healthcare.

3.5 Tentative texts and course materials:

- Healthcare Analytics for Quality and Performance Improvement, Strome, ISBN: 978-1-118-51969-1; Wiley Publishing, 2013

4. Resources:

4.1 Library resources: Adequate

4.2 Computer resources: Adequate

5. Budget implications:

5.1 Proposed method of staffing: Currently no additional resources are needed to offer the course. The course will be staffed as needed by current faculty on a rotational basis during the fall or spring semester.

5.2 Special equipment needed: None

5.3 Expendable materials needed: None

5.4 Laboratory materials needed: None

6. Proposed term for implementation: Spring 2018

7. Dates of prior committee approvals:

Proposal to Revise A Program
(Consent Item)**

Contact Person: Jan Hunt-Shepherd, jan.hunt-shepherd@wku.edu, 270-745-3548

- 1. Identification of program:**
 - 1.1 Current program reference number: 243
 - 1.2 Current program title: Health Information Management
 - 1.3 Credit hours: 62
- 2. Identification of the proposed program changes:**
 - o **Program Additions:** None
 - o **Program Deletions:** BIO 275 is still reflected in Course Catalog for HIM as a restricted elective. This course is no longer offered at WKU.
 - o **Program Modifications:**
 - Added options for students by allowing CIS 141 or CSCI 145C and allowing AH 290 or HIM 290.
- 3. Detailed program description:**

Current Program Description	Proposed Program Description
<p>Programs of Health Information Management</p> <p>Enrollment in each program is limited. A student's application to the associate degree program will be considered following successful completion of the introductory course, HIM 100: Health Data Content and Structure. A student's application to the baccalaureate degree will be considered following successful completion of an associate degree in HIM from a Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM*) accredited program and a minimum overall GPA of 2.5.</p> <p>Students are required to have professional liability insurance coverage during their program of study. In addition, students are required to submit criminal background checks, current immunization records and</p>	

results of a current drug screen as part of the application process. Prior to participating in any professional practice experience (PPE) at selected health care institutions, there may be additional certifications, training seminars, or other requirements by the health care institution that a student must meet in order to be eligible for training at the chosen facility. It is the responsibility of the student to ensure that all institutional requirements are met prior to participation in the PPE. Students may be responsible in part or in full for any costs incurred to meet such requirements. Rules, standards and requirements should be obtained directly from the program office or at www.wku.edu/healthinformationmanagement.

A student who makes below "C" in any Health Information Management core course is required to repeat the course. Any student whose cumulative GPA for one semester is 1.8 or below is encouraged to change into another field of study, or continue in the program for a semester on a probationary basis. If the student chooses to continue and completes another semester with a cumulative GPA of 1.8 or below, he/she will not be permitted to continue in the program. The student may apply for readmission once the cumulative GPA is 2.0 or above. In keeping with University policy, graduation from the program requires a minimum cumulative GPA of 2.0 and a minimum GPA of 2.0 in Health Information Management courses

Current Program	Proposed Program
<p>Associate Degree in Health Information Management (A.S.) Reference Number: 243P (seeking admission) 243 (officially admitted) Minimum Hours for Degree: 62 Degree: Associate of Science</p> <p>The Health Information Management associate degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM)*. Graduates of the program are eligible to apply to take the American Health Information Management Association’s (AHIMA)** certification examination for the designation of Registered Health Information Technician (RHIT). The health information technician is the professional responsible for maintaining components of health information systems consistent with the medical, administrative, ethical, legal, accreditation, and regulatory requirements of the health care delivery system. In all types of facilities, and in various locations within a facility, the health information technician possesses the technical knowledge and skills necessary to process, maintain, compile, and report health information data for reimbursement, facility planning, marketing, risk management, utilization management, quality assessment and research; abstract and code clinical data using appropriate classification systems; and analyze health records according to standards. The health information technician may be</p>	<p>Associate Degree in Health Information Management (A.S.) A student who makes below a "C" in any Health Information Management core course is required to repeat the course.

The associate degree in Health Information Management requires a minimum of 62 semester hours and leads to an Associate of Science degree.

Students must take the following general education courses: ENG 100, MATH 109 or MATH 116, BIOL 131, a three- hour Colonnade Arts and Humanities (AH) course, and six hours of Colonnade Social and Behavioral (SB) courses. The following **HIM curriculum courses** are required AH/HIM courses: AH 290 **OR HIM 290**, HIM 100, HIM 220, HIM 221, HIM 225, HIM 230, HIM 250, HIM 251, HIM 252, HIM 291, HIM 292, and HIM 295.

Students must also select a restricted elective from the following courses: CIS 243, INS 272C, or CS 157. In addition, students must take CSCI 145C or CIS 141.

The associate degree in Health Information Management requires a minimum of 62 semester hours and leads to an Associate of Science degree.

Students must take the following general education courses: ENG 100, MATH 109 or MATH 116, BIOL 131, a three- hour Colonnade Arts and Humanities (AH) course, and six hours of Colonnade Social and Behavioral (SB) courses. The following ~~37 hours~~ are required

<p>AH/HIM courses: AH 290, HIM 100, HIM 220, HIM 221, HIM 225, HIM 230, HIM 250, HIM 251, HIM 252, HIM 291, HIM 292, and HIM 295. Students must also select a restricted elective from the following courses: CIS 243, INS 272C, CS 157, or BIO-275. In addition, students must take CSCI 145C.</p>

<p>Total Hours 62</p>	<p>Total Hours 62</p>

- 4. Rationale for the proposed program change:**
- BIO 275 is no longer offered at WKU so it needs to be removed from the course catalog description in HIM.
 - AH 290 and HIM 290 are equivalent. Having both listed in the HIM program provides options to the student.
 - Since the HIM program moved back to the main campus in fall 2014 students have been taking either CSCI 145C or CIS 141. By including CIS 141 as an option this will reduce completion of an iCAP exception form.

5. Proposed term for implementation: Fall 2017

**College of Health & Human Services

Proposal to Revise A Program
(Consent Item)**

Contact Person: Kacy Harris, kacy.harris@wku.edu , 270-780-2510

1. Identification of program:

- 1.1 Current program reference number: 273
- 1.2 Current program title: Associate of Science in Nursing
- 1.3 Credit hours: 69-70

2. Identification of the proposed program changes:

- Update program description in the Undergraduate Catalog to reflect transition away from traditional ASN option
- Revision of program credit hours from a minimum of 69 to 61 credit hours.
- Reflect credit hour changes from course revisions
 - Decrease NUR 105 Fundamentals of Nursing from 6.5 to 6 credit hours
 - Decrease NUR 106 Fundamentals of Nursing Clinical from 1.5 to 1 credit hour
 - Increase NUR 155 Medical-Surgical Nursing I from 5.5 to 6 credit hours.
 - Decrease NUR 156 Medical-Surgical Nursing I Clinical from 2.5 to 2 credit hours.
 - Increase NUR 165 Mental Health Nursing from 2.5 to 3 credit hours.
 - Decrease NUR 166 Mental Health Nursing from 1.5 to 1 credit hour.
 - Decrease NUR 215 Maternal-Newborn Nursing from 2.5 to 2 credit hours.
 - Increase NUR 216 Maternal-Newborn Nursing Clinical from 1.5 to 1 credit hours.
- Remove CHEM 109 Chemistry for Health Science
- Move BIOL 207 Microbiology to second semester
- Remove SOCL 100 Introductory Sociology
- Revise math listing to match Colonnade requirement

---	---

~~Glasgow Regional Campus locations.~~ ASN Program graduates are eligible to write the NCLEX exam to become a registered nurse.

Required Curriculum

The ASN Program consists of coursework in nursing, supportive sciences and general education courses. The degree requires a minimum of ~~69~~ semester hours including ~~43~~ semester hours in Nursing courses plus ~~26~~ hours of other courses which include BIOL 131, BIOL 207, ~~CHEM 109, MATH 109 or MATH 116~~, PSY 220 / PSYS 220, ENG 100, ~~SOCL 100~~, and one 3-hour Arts and Humanities (AH) course. Required nursing courses include NUR 104, NUR 105, NUR 106, NUR 155, NUR 156, NUR 157, NUR 165, NUR 166, NUR 208, NUR 209, NUR 215, NUR 216, NUR 254, NUR 255, and NUR 257.

~~The last application cycle for students who are not Licensed Practical Nurses (LPNs) is September 2016.~~ *Applicants seeking admission to the ASN Program:*

1. Submit the nursing program application by the designated deadline.
2. Submit application for admission to Western Kentucky University if not already enrolled.
3. Take the required admission assessment test.
4. Participate in an admission interview process if requested.
5. Applicants with less than 10 earned university credit hours must submit ACT examination results.

to give nursing care in a variety of health care settings and provides the knowledge base for career mobility. ASN Program graduates are eligible to write the NCLEX exam to become a registered nurse.

Required Curriculum

The ASN Program consists of coursework in nursing, supportive sciences and general education courses. The degree requires a minimum of **61** semester hours including **42** semester hours in Nursing courses plus **19** hours of other courses which include BIOL 131, BIOL 207, PSY 220 / PSYS 220, ENG 100, **a 3-hour Quantitative Reasoning course**, and one 3-hour Arts and Humanities (AH) course. Required nursing courses include NUR 104, NUR 105, NUR 106, **NUR 150**, NUR 155, NUR 156, NUR 157, NUR 165, NUR 166, NUR 208, NUR 209, NUR 215, NUR 216, NUR 254, NUR 255, and NUR 257.

Applicants seeking admission to the ASN Program:

1. Submit the nursing program application by the designated deadline.
2. Submit application for admission to Western Kentucky University if not already enrolled.
3. Take the required admission assessment test.
4. Participate in an admission interview process if requested.
5. Applicants with less than 10 earned university credit hours must submit ACT examination results.
6. Applicants with 10 or more earned university credit hours must have a cumulative grade point average of 2.75 or greater. Grade point average for

6. Applicants with 10 or more earned university credit hours must have a cumulative grade point average of 2.75 or greater. Grade point average for the applicant with either an earned bachelor's degree or higher will be calculated using only the ASN program's required non-nursing courses.

7. Applicants who have completed college course/degrees at institutions other than WKU must submit a copy of his/her transcript to the ASN program with application as well as request an official transcript be sent to the WKU Office of Admissions, Potter Hall, Room 117, 270.745.2551 in order to receive transfer credit for required courses.

~~8. Students who have obtained a grade of C or higher in Anatomy & Physiology (BIOL 131 or equivalent), more than 5 years prior to application to the nursing program must either retake the course or demonstrate current competency by passing a challenge exam prior to application to the program.~~

Associate of Science in Nursing—LPN to ASN option

~~The ASN Program assists Licensed Practical Nurses (LPNs) in ASN Program completion by offering various delivery methods, scheduling options, challenge exams and experiential credit. LPNs are encouraged to contact the LPN to ASN Program Coordinator to discuss their eligibility and to develop a customized curriculum plan.~~

Required Curriculum for LPN to ASN Option

~~The LPN to ASN option consists of course work in nursing, supportive sciences and general education. The program requires a minimum of 70 credit hours including 44 credit hours in nursing courses and 26 credit hours in general~~

the applicant with either an earned bachelor's degree or higher will be calculated using only the ASN program's required non-nursing courses.

7. Applicants who have completed college course/degrees at institutions other than WKU must submit a copy of his/her transcript to the ASN program with application as well as request an official transcript be sent to the WKU Office of Admissions, Potter Hall, Room 117, 270.745.2551 in order to receive transfer credit for required courses.

8. Submit copy of current LPN license.

~~education courses. General education courses include: BIOL 131, BIOL 207, CHEM 109, MATH 109 or MATH 116, PSY 220 / PSYS 220, ENG 100, SOCL 100, and one 3-credit hour Arts & Humanities (AH) course.~~

~~Required nursing courses include NUR 104, NUR 105, NUR 106, NUR 150, NUR 155, NUR 156, NUR 157, NUR 165, NUR 166, NUR 208, NUR 209, NUR 215, NUR 216, NUR 254, NUR 255, and NUR 257.~~

Upon admission to the ASN Program, and after successful completion of NUR 150, PSY 220 / PSYS 220, and BIOL 131, the licensed practical nurse will submit proof of current LPN license to the LPN to ASN Program Coordinator for the awarding of nine hours academic credit for NUR 104, NUR 105, and NUR 106.

LPNs may receive credit on the basis of departmental examinations for NUR 165, NUR 215, and NUR 254. LPNs must contact the ASN Program office for examination details. Additionally, LPNs may receive experiential credit for NUR 156, NUR 166, and NUR 216 after successful completion of each clinical course's didactic component.

~~Applicants seeking admission to the LPN to ASN Option must:~~

- ~~1. Submit nursing program application by designated deadline.~~
- ~~2. Complete admission application to Western Kentucky University if not already enrolled.~~
- ~~3. Take the required admission assessment test.~~
- ~~4. Participate in an admission interview process if requested.~~
- ~~5. Applicants with less than 10 earned university credit hours must submit ACT examination results.~~
- ~~6. Applicants with 10 or more earned university credit hours must have a cumulative grade point average of 2.75 or~~

Upon admission to the ASN Program, and after successful completion of NUR 150, PSY 220 / PSYS 220, and BIOL 131, the licensed practical nurse will submit proof of current LPN license to the LPN to ASN Program Coordinator for the awarding of nine hours academic credit for NUR 104, NUR 105, and NUR 106.

LPNs may receive credit on the basis of departmental examinations for NUR 165, NUR 215, and NUR 254. LPNs must contact the ASN Program office for examination details. Additionally, LPNs may receive experiential credit for NUR 156, NUR 166, and NUR 216 after successful completion of each clinical course's didactic component.

greater. Grade point average for the LPN will be calculated using only the ASN program's required non-nursing courses.

7. Applicants who have completed college course/degrees at institutions other than WKU must submit a copy of his/her transcript, including LPN program academic transcript, to the ASN program with application as well as request an official transcript be sent to the WKU Office of Admissions, Potter Hall, Room 117, 270.745.2551 in order to receive transfer credit for required courses.

8. Students who have obtained a grade of "C" or higher in Anatomy & Physiology (BIOL 131 or equivalent) more than 5 years prior to application to the nursing program must either retake the course or demonstrate current competency by passing a challenge exam prior to application to the program. Currently practicing LPNs will be exempt from the five year limitation for Anatomy & Physiology.

9. Submit copy of current LPN license.

TOTALS		Credit Hours	70		TOTALS		Credit Hours	61

4. Rationale for the proposed program change:

- Maintaining the LPN to ASN option, while transitioning away from the traditional ASN option, will allow for potential growth in the baccalaureate

nursing program to help fulfill the needs of both the community and students, while contributing to the Institute of Medicine target goal of increasing the proportion of registered nurses with a baccalaureate degree to 80%.

- The proposed change in minimum credit hours from 69 to 61 credit hours will continue to meet the minimum requirement for an associate degree as requested by the CPE for all Kentucky public universities. The proposed 61 credit hours will not sacrifice the quality of the Associate of Science in Nursing (ASN) program or the qualifications for the graduates to successfully complete the required licensure examination while bringing the program more in line with CPE recommendation of 60 credit hour associate degree program.
- Credit hour changes are reflective of the course revisions
 - Decrease NUR 105 Fundamentals of Nursing from 6.5 to 6 credit hours
 - Decrease NUR 106 Fundamentals of Nursing Clinical from 1.5 to 1 credit hour
 - Increase NUR 155 Medical-Surgical Nursing I from 5.5 to 6 credit hours.
 - Decrease NUR 156 Medical-Surgical Nursing I Clinical from 2.5 to 2 credit hours.
 - Increase NUR 165 Mental Health Nursing from 2.5 to 3 credit hours.
 - Decrease NUR 166 Mental Health Nursing from 1.5 to 1 credit hour.
 - Decrease NUR 215 Maternal-Newborn Nursing from 2.5 to 2 credit hours.
 - Increase NUR 216 Maternal-Newborn Nursing Clinical from 1.5 to 1 credit hours.
- CHEM 109 Chemistry for Health Science is not a standard course for associate degree nursing programs and students can be successful in nursing without having a chemistry course. As chemistry is not required by other nursing programs, this revision increases program competitiveness. CHEM 109 has already been removed from the WKU RN to BSN program. Removal of chemistry from the ASN program maintains colonnade requirements for an associate degree program and will allow students flexibility when selecting the second natural science colonnade requirement for a future baccalaureate degree.
- BIOL 207 Microbiology was moved from third to second semester in the curriculum plan to allow students an additional semester to apply knowledge learned in microbiology to nursing classroom/clinical experiences and to evenly disperse credit hours across the program.
- SOCL 100 Introductory Sociology is not a standard course for associate degree nursing programs and students can be successful in nursing without having an introductory sociology course. As sociology is not required by other nursing programs, this revision increases program competitiveness. Sociology has already been removed from the WKU RN to BSN program. Removal of sociology from the ASN program continues to meet the social and behavioral colonnade requirement for an associate degree program and a future baccalaureate degree.
- Revision of the math listing allows for any math course meeting Quantitative Reasoning colonnade requirement simplifying the transfer evaluation process. This provides consistency with the math requirements for the WKU BSN

program. In addition, the revision continues to meet the quantitative reasoning
 colonnade requirement for an associate degree and a future baccalaureate degree.

5. Proposed term for implementation: Fall 2017

6. Dates of prior committee approvals:

Associate of Science in Nursing Program	<u>January 9, 2017</u>

~~Enrollment in the program is limited; program admission information and policies should be obtained directly from the program office or the following website:~~

~~www.wku.edu/healthinformationmanagement~~

~~The following courses are required for the major: CIT 310, CIT 330, CIT 332, CIT 350, CIT 492, HCA 340, HCA 342, HCA 401 or HCA 445, HIM 230, HIM 252, HIM 350, HIM 351, HIM 422, HIM 450, HIM 495, and PH 383. In addition, students must select 8 hours of electives from the following courses: HIM 100, HIM 221, HIM 250, HIM 251.~~

~~Students may be required to provide evidence of mastery of content for competency courses HIM 230-Computer Systems & Applications in HIM and HIM 252-Healthcare Payment Systems; specialty certifications and/or training may be considered as meeting this requirement.~~

following courses: HIM 100, HIM 230, HIM 250, HIM 251, HIM 252, AH 290/HIM 290, HIM 291, and HIM 292. Students not achieving a satisfactory score (70% or above) on the department examination(s) must complete the corresponding course(s). **National specialty certifications and/or training may be considered as evidence of mastery of course content in specific courses.**

The following courses are required for the major:

HIM 100, HIM 225, HIM 230, HIM 250, HIM 251, HIM 252, AH 290 or HIM 290, HIM 291, HIM 292, HIM 330, HIM 350, HIM 351, HIM 421, HIM 422, HIM 430, HIM 450, HIM 495, HCA 340, PH 383, CSCI 145C or CIS 141, CIS 243 or CSCI 157, CIT 350 or BDAN 330, and 12 credit hours selected from the following: CIT 310, CIT 330, CIT 332, CIT 492, **BDAN 310, BDAN 410, BDAN 420, BDAN 430. BIOL 131 must be completed prior to full admission to the program.**

A student who makes below "C" in any Health Information Management core course is required to repeat the course.

Current Program	Proposed Program
	AH 290 Medical Terminology (2) OR HIM 290 Medical Terminology (2) HIM 225 Legal Issues in HIM (2) HIM 291 Advanced Medical Terminology (2) HIM 292 Pharmacology and Laboratory Diagnostics (2) HIM 330 Electronic Health Records (3) HIM 421 Health Information Management and Leadership (3) HIM 430 Health Data Management and Analytics (3) CSCI 145C Introduction to Computing (3) OR CIS 141 Basic Computer Literacy (3) CIS 243 Principles of MIS (3) OR CS 157 Information Security I (3) BIOL 131 Human Anatomy & Physiology (4)

Total hours 54	Total hours 79-82

4. Rationale for the proposed program change:

- Three new courses (HIM 330, HIM 421, and HIM 430) will be added to the program in order to meet the new HIM accrediting body (CAHIIM) curriculum requirements for Fall 2017 and allow for more in depth topics in the HIM field. Curriculum changes are in response to the healthcare industry needs for healthcare data analytics professionals. Healthcare is becoming increasingly data driven. Increased education will allow for more job opportunities for graduates.

In addition, currently an associate degree from a CAHIIM accredited program is required for admission to the baccalaureate program. Adding seven existing courses from the associate degree program to the baccalaureate program will allow students without a pre-existing HIM CAHIIM accredited associate degree to enter into the baccalaureate program. This will increase enrollment. (Currently only three KCTCS associate degree programs are CAHIIM accredited so most KCTCS graduates who want in the baccalaureate program cannot be admitted.)

- Two courses (HCA 342 and HCA 401) are being deleted from the program in order to fit in the newly developed course curriculum required for CAHIIM accreditation. This will allow total credit hours to be as close to 120 credit hours as possible. Necessary content from HCA 342 and HCA 401 for HIM BS students was added to the HIM 421 course.
- Proposed revisions in the program will:

- Allow more students to be eligible to apply to the HIM B.S. program by modifying admission requirements and increasing credit hours.
- Allow Program Description to be in line with the modified admission requirements.
- Allow students more options on course choices, which will help with scheduling and allow students to choose to take classes completely online or take some classes face-to-face.
- Provide the student the flexibility of taking computer information technology courses, business informatics/analytics courses, or a combination of the two depending on the interest of the student through adding course options under the restricted electives.
- Allow the program the ability to meet CAHIIM accreditation requirements for competency skills by moving HIM courses from electives to required courses.

5. Proposed term for implementation: Fall 2017

6. Dates of prior committee approvals:

Department Public Health	<u>12/01/2016</u>
CHHS Undergraduate Curriculum Committee	<u>1/27/2017</u>
Undergraduate Curriculum Committee	<u>02/23/2017</u>
University Senate	<u> </u>

Proposal Date: September 16, 2016

1. Identification of program:

- 1.1 Current program reference number: 563
- 1.2 Current program title: Family and Consumer Sciences
- 1.3 Credit hours: FACS Education concentration: 82; Family Studies concentration: 51; Child Studies concentration: 51

2. Identification of the proposed program changes: Changes are proposed for all three concentrations in family and consumer sciences as outlined below.

FACS Education:

- Remove FACS 180, Foundations in FCS
- Remove FACS 492, Growth and Guidance of Children
- Remove SEC 352, Planning for Student Diversity
- Remove SEC 351 Teaching Strategies in the Secondary School
- Remove CIS 141 Basic Computer Literacy
- Add FACS 282, Introduction to Family and Consumer Sciences Education
- Add FACS 422, Adolescent Psychology
- Add FACS 312, Professional Ethics for Family Life
- Add two elective courses selected from an identified list of electives, with advisor approval.

Family Studies:

- Remove FACS 492 (Growth and Guidance of Children)
- Remove SOCL 300 (Using Statistics in Sociology)
- Remove PSYS 430 OR SOCL 355 OR SOCL 366
- Add FACS 422 (Adolescent Psychology)
- Add FACS 312 (Professional Ethics in Family & Consumer Sciences)
- Add approved 3-hour upper-level elective: FACS 395 Child and Family Stress; FACS 497 Family Home Visiting; PH 444 Death, Dying, and Bereavement; Elective approved by advisor

Child Studies:

- Remove FACS 492 (Growth and Guidance of Children)
- Remove SOCL 300 (Using Statistics in Sociology)
- Add FACS 312 (Professional Ethics for Family Life)
- Add FACS 393 (Play and Child Development) OR FACS 496 (Challenging Behaviors)
- Correction to iCAP report to match catalogue
- Add list of approved electives: FACS 391 (Risk and Reliance), FACS 395 (Child and Family Stress), FACS 410 (Internship), FACS 422 (Adolescent Psychology), FACS 495 (Family and Relationship Violence), FACS 497 (Family Home Visiting), Elective approved by academic advisor

3. Detailed program descriptions:

Current Program	Proposed Program
<p>This program offers three concentrations which lead to a Bachelor of Science degree: (1) Child Studies, which provides a program of study for those who wish to work in a child-focused environment but do not want teacher certification; (2) Family and Consumer Sciences Education, which leads to teacher certification; and (3) Family Studies, which provides a program of study for those who wish to work in a family-focused environment.</p> <p>The concentration in Child Studies requires a minimum of 51 hours in consumer and family sciences and related courses. A grade of “C” or above must be earned in the following courses required for this concentration: HMD 211, FACS 180, 191, 192, 292, 294, 299, 310, 311, 380, 399, 492, 493, 494, 499, a FACS upper-level elective, and SOCL 300. A minor or second major is required.</p> <p>The concentration in Family and Consumer Sciences Education requires a minimum of 51 hours in consumer and family sciences, and 31 hours in professional education for a total of 82 semester hours and leads to a Bachelor of Science degree. A grade of “C” or above must be earned in the following courses required for this major: HMD 111, 151, FACS 180, 191, 281, 310, 311, 380, 381, 481, 492, 493, 494, IDFM 100, 131, 223, CIS 141. Professional education courses required are: EDU 489, SPED 330, SEC 351, 352, 490, MGE 275, 490, LTCY421, and PSY 310. No minor is required. Students majoring in FACS Education are required to meet with their advisor before enrolling for the upcoming semester. All requirements for admission to professional education must be met to fulfill the Kentucky standards for the designated teaching certificate. Current information on teacher education and certification are available on the website for the</p>	<p>This program offers three concentrations which lead to a Bachelor of Science degree: (1) Child Studies, which provides a program of study for those who wish to work in a child-focused environment but do not want teacher certification; (2) Family and Consumer Sciences Education, which leads to teacher certification; and (3) Family Studies, which provides a program of study for those who wish to work in a family-focused environment.</p> <p>The concentration in Child Studies requires a minimum of 51 hours in consumer and family sciences and related courses. 4. Rationale for the proposed program change:

The program is being updated in the following ways for the following reasons:

FACS Education Concentration:

- The FACS Education advisory board that met July 2016 reviewed the current program and identified a major weakness in the program as limited depth in content which makes it difficult for students to be completely comfortable with content when they start their teaching career. FACS Education is a comprehensive degree and students do not know during their pre-service preparation what subjects they might teach when they are first hired, much less later in their career; students must prepare to teach content in a wide variety of subject matters. They may be asked to teach any of 35 different courses at either the middle school or high school level; most will teach a combination of different courses each semester. The advisory board was unanimous in their recommendation that place be found in the curriculum for additional electives to allow students to have more depth in at least one or more content areas. This change will allow students to select two electives from an identified list, allowing them more depth in the fields of culinary, child development, hospitality, youth organizations and leadership, apparel and textiles, and sexuality (a major component of some courses).
- A survey was sent to all program graduates since 2010 that are currently teaching family and consumer sciences in either Kentucky or Tennessee. It was also administered to students in the FACS 481 class (capstone course) and the student that is currently student teaching. There was a 73% return rate on the surveys. All indicated a need for an increased content knowledge base prior to graduation and indicated that the areas they most needed more depth in were child development and culinary, specifically having the ServSafe certification since these are currently the most popular pathways in Kentucky. More recent graduates and current seniors all indicated a preference for dropping CIS 141, SEC 351, and SEC 352.
- SEC 351 and 352 will be dropped. The School of Teacher Education has recently changed the way the SEC 351 and 352 courses are taught and anticipates making additional changes to those courses, only offering them once per year and during the same semester. This will be difficult for the FACS Education students, necessitating 88 hours of observation during one semester in addition to requirements in other classes. Since the School of Teacher Education has changed the focus of how the SEC 351 and 352 courses are taught, there has been a great deal of inconsistency in the teaching of these two classes. Few other programs preparing either K-12 or 5-12 teachers at WKU require students to complete these courses. Recent graduates indicated that the content from these courses could either be eliminated or included in other courses to better meet their needs. The observation hours (at total of 88) will be distributed between the FACS 282, 381, and 481 classes.
- CIS 141 will be dropped. While earlier graduates felt they benefitted from this course, more recent graduates indicated that they already had the majority of the skills and knowledge presented in the class. Students come to college more computer literate than when this course was first added to the program. Both the advisory committee and current/recent graduates indicated it should be dropped. Few, if any, other programs preparing either K-12 or 5-12 teachers at WKU require students to complete this course.
- FACS 180, an introduction to all family and consumer sciences careers, is being replaced with FACS 282. This will better meet the needs of students as it will start them with observation opportunities, lesson planning and presentation, and resource development toward future teaching experiences. Students will be required to take the Praxis Core

Academic Skills for Educators at least once during this course to help ensure their timely completion of this requirement for admission to teacher education. Making this change will also benefit students who change their major later in their university experience as it will better serve the needs of this population than the FACS 180 currently does.

- FACS 492 is not currently being taught. It was a second course in child development. FACS 422 will expand child and human development to the adolescent age group, which is more appropriate for those students that will be teaching in middle grades and high school. This will assist future teachers as they develop lesson plans and activities geared to adolescents and strive to understand the developmental processes these students are working through.
- FACS 312 will replace the SEC 352 course. SEC 352 focused on diversity. This, based on student feedback, generally dealt with special needs students and several expressed the opinion that since SPED 330 was added to the program, there was some duplication. A major factor when dealing with diverse students of all types is doing so in an ethical manner. The addition of the ethics course will help future teachers more firmly grasp the varied responsibilities of ethical professionalism, including the code of ethics they must agree to as future FCS teachers in Kentucky.
- CIS 141 and SEC 351 will be replaced by two electives selected by the student in consultation with their advisor. The electives students may choose from include HMD 151 and 251 (taken concurrently), HMD 171, FACS 192, FACS 495, AGED 300, IDFM 132, IDFM 431, and PH 365. Students may select other electives after consultation and with approval of their advisor.

Family Studies Concentration:

- After a thorough review of the curriculum, it was determined that the majority of the content of FACS 492 was duplicated in numerous courses throughout the major, many of which are taken in sequence before FACS 492. Instead, students will now take FACS 422 (Adolescent Psychology) to fill a gap in the human development portion of the curriculum. The content of FACS 422 is important for students who may end up in career positions working with adolescents and their families.
- SOCL 300 has been used as a prerequisite for FACS 399 (Implications of Research in FCS). A review of the curriculum revealed that the content in SOCL 300 needed to be successful in FACS 399 was also being taught during the early portions of the FACS 399 course. Students will now take FACS 312 as a required major course. The review of program curriculum indicated the need for a course based on ethics and professionalism specific to the family life professions. FACS 312 will also allow students to better prepare to become Certified Family Life Educators, should they choose to do so.
- The content of PSYS 430 OR SOCL 355 OR SOCL 366 are now incorporated into a variety of courses that FACS students currently take (e.g., FACS 191, FACS 310, FACS 311, FACS 494, FACS 495). When the family studies major concentration was originally created, this portion of the curriculum was designed to focus on gender in the context of families. As the family studies curriculum evolved, the topic of gender and families has been incorporated into a number of required major courses. Instead, students will now have an option to choose an approved upper-division elective, allowing them some flexibility in their major concentration.
