Vaccine Mandate for Faculty

We administered a survey (to faculty) to determine support for a vaccine mandate. Dan tallied the results as follows:

463 total responses; 3 with no answer selected; 1 spoiled ballot (chose both one of the options and also neither of these)

459 valid ballots

158 (34%) Only Full COVID-19 vaccination mandate for all faculty (except for documented medical exemptions)

58 (13%) Only Proof of COVID-19 vaccination or twice-weekly testing at the faculty member's expense

128 (28%) Both

115 (25%) Neither

So that's 75% in favor of one or both, and 25% against both.

However, it died in the SEC.
