Agenda

1. Policy 1.2125

- a. Two main concern that Rob is taking to the deans: (1) can the cutoff day for determining pay be the first day of class? (2) can the colleges (given that their resources are greater than an individual faculty member's own) assume the risk of running a course below the minimum enrollments (recognizing that it may go quite a few over in some years to counterbalance this), or is this in effect taking away the choice about whether to run the course from the individual faculty member

2. 2023-2024 Faculty Survey

- a. Agreed to send this previous year survey out with Todd's adjustments
- b. Agreed to also create a survey for chairs that collects stories about industry salaries for grads/students (would also want to address compression and compensation at benchmarks)

3. Bereavement Leave

- a. Agreed that we would write to Staff Senate so as to not undercut what they are working on

4. New business

- a. None

5. Adjourn
