## Program Name (eg. Biology)

Advanced Teacher Education

Will this program have concentrations? Yes

## Concentrations

## Concentration(s)

- College and Career Readiness
- Elementary Mathematics Specialist P-5 (KEM)
- Environmental Education (KEV)
- Gifted and Talented Education (KE37)
- Instructional Design
- Instructional Computer Technology (KCT)
- Teacher Leader (KTLE)
- Teaching English to Speakers of Other Languages (TESOL) (KE36)

## CIP Code

131202 - 131202

Will this program lead to teacher certification? Yes

## **Catalog Content**

## Program Overview (Catalog field: Overview tab)

This program is designed to develop advanced educators who can positively impact student learning in their classrooms and schools. Courses and experiences include professional learning communities in which candidates interact with other graduate candidates from various content areas and grade levels to discuss and work on real world challenges and promising practices they encounter in schools.

The program is divided into two instructional components. The first component, professional education, provides 15 hours of study collaboratively developed between WKU and the administration of the specific school district in which the candidate is employed. This includes a study of education in positive behavioral supports, teaching strategies and curriculum development. The second component, the concentration, directs the candidate into an individual program in content, pedagogy, and/or areas of professional growth concurrent with the goals of each candidate.

## Admission Requirements (Catalog field: Program Admission)

## **Program Admission**

Applicants must be accepted to the WKU graduate school and hold a valid teaching certificate. A copy of the certificate or statement of eligibility must be submitted with the application.<sup>1</sup>

Applicants whose certificates have expired may be admitted, but they may enroll for only six hours before they must apply to the EPSB for re-issued certificates. After completion of six hours, a student admitted with an expired certificate must submit a copy of the re-issued certificate before being allowed to register for any additional courses.

**Curriculum Requirements (Catalog field: Program Requirements)** 

# Program Requirements (30-37 hours)

During the program, students will complete 15 hours of coursework that are school-district driven and a minimum of 15 hours of specialization coursework chosen by the student. Students should consult with their advisors regarding course work to meet their professional goals.
