Proposal to Revise a Program: Major in Sociology

Potter College of Arts and Letters

**Department/Unit: Department of Sociology** 

## **Section 1: Proponent Contact Information**

1.1 Name/Title: Douglas Clayton Smith / Department Head of Sociology

1.2 Email address: douglas.smith@wku.edu

1.3 Phone: 5-3750

#### **Section 2: Program Information**

- 2.1 Classification of Instructional Program (CIP) reference number: 775
- **2.2** Current Program title: Major in Sociology
- 2.3 Current total number of credits required in the program: 31

#### Section 3: Proposed program revisions and rationales

**3.1 First proposed revision**: Correction of error in Option 5. The required course for the option was inadvertently omitted in the last program revision. This restores it. This change is necessary for the concentration to be in CPE compliance.

**Section 4: Consultations:** N/A. This revision affects no other program or unit.

Section 5: Proposed term for implementation: Fall 2019.

#### **Section 6: Approval Flow Dates:**

Sociology Department: August 22, 2018

Potter College Curriculum Committee: September 6, 2018

**Undergraduate Curriculum Committee:** 

**University Senate:** 

#### Section 7: Required Appendices: Current & proposed program descriptions:

- **7.1** On a separate page of its own, clearly list all of the requirements of the program as it currently exists, indicating any items being changed or deleted with beld font, striking through and highlighting.
- **7.2** On another separate page of its own, using the exact same layout used in 7.1 above, clearly list all of the requirements of the proposed program, indicating all new or revised items with **bold font and highlighting.**

#### 7.1: <u>Current</u> Program Description

The major in sociology requires a minimum of 31credit hours and leads to a Bachelor of Arts degree. At least half the total semester hours earned must be in upper-division courses (courses numbered 300-499). A minor or second major is required.

Students may choose one of four thematic concentrations or they may choose a general major. Students may complete more than one concentration and in so doing have both appear on his or her transcript.

However, a single elective cannot count toward completion of more than one concentration (e.g., a student may not count SOCL 362 toward the completion of both "Inequality and Social Change" concentration AND the "Family, Gender, and Sexuality" concentration).

Required courses for all options	Credits	Notes

# Mahurin Honors College Proposal to Revise Course Prerequisites/Corequisites (Consent Item)

Contact Person: Dr. Alexander Olson, History Department

4	T 1 4000 40	e
I.	Identificati	on of course:

- 1.1 Course prefix (subject area) and number: **Honors 251**
- 1.2 Course title: Citizen and Self
- **2. Current prerequisites/corequisites/special requirements:** 3.2 GPA, Honors standing, or permission of instructor.
- **3. Proposed prerequisites/corequisites/special requirements:** We propose to eliminate all prerequisites for this course.
- 4. Rationale for the revision of prerequisites/corequisites/special requirements: Honors 251 is the required core course of the Mahurin Honors College (MHC) curriculum. It is typically taken during the first year as an introduction to the Honors curriculum, which seeks to "foster excellence in all forms of expression through research and experiential learning, critical thinking, active citizenship, and international engagement." Students learn how to develop meaningful questions about social issues, and then reflect on the pathways they might take (at WKU and beyond) to find answers to these questions. Because the course involves discussion of social issues facing the WKU community as a whole, we have found—and students have independently observed—that the course would be improved if it included a more diverse cross-section of the student population rather than exclusively honors students. In addition, because it is taken early in the curriculum and does not demand a preexisting skillset, Honors 251 is well-positioned to serve as an alternative gateway to the MHC. We hope it will offer students who were not admitted through the admissions process a chance to see if Honors is something they would like to pursue. Eliminating prerequisites will allow for Honors 251 to serve this function. We believe all students can thrive in Honors 251 since our philosophy is that an Honors education means greater engagement in one's own education, not simply greater difficulty.
- 5. Effect on completion of major/minor sequence: N/A
- **6. Proposed term for implementation:** Spring 2019
- 7. Dates of prior committee approvals:

August 23, 2018

# Ogden College of Science & Engineering Department of Geography & Geology Proposal to Revise Course Prerequisites/Corequisites (Consent Item)

Contact Person: Kevin B. Cary, M.Sc., GISP E-mail: kevin.cary@wku.edu Phone: 5-2981

- 1. Identification of course:
  - 1.3 Course prefix (subject area) and number: GISC 316
  - 1.4 Course title: Fundamentals of GIS
  - 1.5 Credit Hours: 4
- **2.** Current prerequisites/corequisites/special requirements: GEOG 103, OR GEOL 103, AND 110, or permission of instructor.
- 3. Proposed prerequisites/corequisites/special requirements: None.
- **4.** Rationale for the revision of prerequisites/corequisites/special requirements: GISC 316 is the gateway GIS course and serves majors from across the institution. Students receive all the necessary preparation to succeed in the curse as part of the curriculum.
- **5. Effect on completion of major/minor sequence:** No change. Gisc 316 is required for GIScience majors, GIS minors, and GIS Certificate.
- **6. Proposed term for implementation:** First available.
- 7. Dates of prior committee approvals:

Proposal Date: March 30, 2018

# Ogden College of Science and Engineering School of Engineering and Applied Sciences Proposal to Revise Course Prerequisites/Corequisites (Consent Item)

Contact Person: Walter Collett, walter.collett@wku.edu, 270-745-2016

## 1. Identification of course:

- 1.1 Course prefix (subject area) and number: EE 300
- 1.2 Course title: Electrical Engineering Design III

## 2. Current prerequisites:

Prerequisite(s): Completion of Electrical Engineering pre-major requirements and EE 200, or consent of instructor

# 3. Proposed prerequisites:

Prerequisite(s): Completion of Electrical Engineering pre-major requirements, EE 101, EE 180, EE 200, and

CS 239 or CS 180;

or consent of instructor.

# 4. Rationale for the revision of prerequisites:

The courses EE 101, EE 180, and CS 239 were, until recently, on the list of Electrical Engineering premajor requirements. These courses were dropped from that list, but are still necessary for students taking EE 300. Also, students are allowed to take CS 180 in place of CS 239.

# 5. Effect on completion of major/minor sequence:

None.

## 6. Proposed term for implementation:

As soon as possible.

School of Engineering and Applied Sciences	3/23/18
Ogden College Curriculum Committee	05/03/18

Proposal Date: March 30, 2018

# Ogden College of Science and Engineering School of Engineering and Applied Sciences Proposal to Revise Course Prerequisites/Corequisites (Consent Item)

Contact Person: Walter Collett, Electrical Engineering Program Coordinator

walter.collett@wku.edu

270-745-2016

#### 1. Identification of course:

- 1.1 Course prefix (subject area) and number: EE380
- 1.2 Course title: Microprocessors
- 2. Current prerequisites:

Prerequisite(s): EE 180 and CS 239 with a grade of C or better and EE 210.

3. Proposed prerequisites:

Prerequisite(s): EE 210, EE 180 (C or better), and

CS 239 (C or better) or CS 180 (C or better)

4. Rationale for the revision of prerequisites:

CS 180 (Computer Science I) is often taken by CS majors and Gatton students, and it covers much of the same material as CS 239 (Problem Solving with Computational Techniques) — algorithmic approaches to problem solving, implemented in a high level programming language. This adaptation has been handled via overrides and exceptions for several semesters; it's something that can now be embedded in the normal systems.

This change should also make it easier for computer science majors and transfer students to take Microprocessors, since Computer Science I is a regularly required course for CS here and elsewhere.

5. Effect on completion of major/minor sequence:

None.

6. Proposed term for implementation:

As soon as possible.

School of Engineering and Applied Sciences	3/23/18
Ogden College Curriculum Committee	05/03/18
Undergraduate Curriculum Committee

Proposal Date: 02/04/2018

# Ogden College of Science & Engineering Department of Chemistry Proposal to Revise Course Credit Hours (Action Item)

Contact Person: Jeremy B Maddox, jeremy.maddox@wku.edu, 5-8725

## 1. Identification of course:

- 1.1 Current course prefix (subject area) and number: CHEM 399
- 1.2 Course title: RESEARCH PROBLEMS IN CHEMISTRY
- 1.3 Credit hours: 1-3

# 2. Proposed course credit hours: 0-3

## 3. Rationale for the revision of course credit hours:

The Department and Ogden College will use a zero credit hour section of CHEM 399 to track students participating in research but that are not using that activity for CHEM credit, e.g., research students paid via a grant.

4. Proposed term for implementation: First available

Department of Chemistry	<u>2/16/2018</u>

# 4. Rationale for the proposed program change:

## • Add EE 436 to the list of approved EE Technical electives

This course was originally created to be offered as an EE technical elective, due to the importance of the subject matter and its relevance to electrical engineers.

# 5. Proposed term for implementation and special provisions (if applicable):

Earliest Possible.

# Ogden College of Science & Engineering School of Engineering and Applied Sciences Proposal to Revise A Program (Action Item)

Contact Person: Stacy Wilson, Stacy.wilson@wku.edu, 5-6394

1.	<b>Identification</b>	of	program:
	1001101110011	•	Programme

- 1.1 Current program reference number: 575
- 1.2 Current program title: Technology Management
- 1.3 Credit hours: 120

# 2. Identification of the proposed program changes:

Proposed program title: Engineering Technology Management

# 3. Detailed program description:

No revisions to required courses are proposed.

- **4. Rationale for the proposed program change:** Several years ago, the graduate program in technology management was renamed "Engineering Technology Management" to better reflect the work the students did after graduation. It is desired to change the undergraduate program title for similar reasons. Also, it is believed that this will aid in the recruiting process for this program.
- 5. Proposed term for implementation and special provisions (if applicable): As soon as possible
- 6. Dates of prior committee approvals:
