(Action Item)

Proposal to Create a New Course: GERM 399 Personalized Learning
Potter College of Arts & Letters
Department of Modern Languages

Section 1: Proponent Contact Information

- 1.1 Name/Title:** Laura McGee / Professor
- 1.2 Email address:** laura.mcgee@wku.edu
- 1.3 Phone #:** 270-745-2763

Section 2: Course Catalog Information

- 2.1 Course prefix (subject area) and number:** GERM 399
- 2.2 Course CIP code:** 05.0125
- 2.3 Course title:** Personalized Learning
- 2.4 Abbreviated Course title:** Personalized Learning
- 2.5 Credit hours/Variable credit:** 3/ No
- 2.6 Repeatability:** Repeatable one time for a total of 6 credits.
- 2.7 Course Term: Is this course intended to span more than a single term?**

NO

2.8 Course Catalog Description:

Guided project-based individualized learning to develop language and cultural skills for practical applications in the workplace or academia. Focuses on study of the German-speaking world at the intermediate or advanced proficiency level. Fulfills World Language, with a grade of C or better.

- 2.9 Prerequisite/Co-requisites/Restrictions:** Completion of GERM 202. Permission of instructor is required.

- 2.10 Additional Enrollment Requirements:** N/A
- 2.11 Other Special Course Requirements:** N/A
- 2.12 Grade Type:** a standard A-F final grade
- 2.13 Schedule Type:** Applied Learning

Section 3: Description of proposed course

3.1 Course Content Summary:

- Participation in a series of assigned activities designed to expose the student to aspects of the target language and culture at the intermediate or advanced level.
- Guided acquisition of practical reading and listening strategies at the intermediate or advanced level.
- Development of learner autonomy through completion of a series of tasks related to applied uses of the language for career purposes.
- Completion a culminating project or portfolio in German that demonstrates practical use of the language related to the student's career plans and/or academic interests.

3.2 Learning Outcomes:

The student will demonstrate independence and strategic learning in German. In conjunction with the instructor, he/she will design a feasible project that is meaningful and take action to complete all the tasks associated with the project under the supervision of the instructor. S/he will also gain knowledge and develop demonstrated intermediate or advanced proficiency in the selected topics and reflect upon his/her learning strategies.

3.3 Assessment/Evaluation:

- Language proficiency assessment based on internal measures such as a modified oral proficiency interview and/or proficiency-based evaluation of products of learning. May also include external assessments such as those available from Language Testing International or Avant Assessment.
- The compilation of a portfolio of practical language and cultural work, and reflective essays on the experiences the student gathers.

Section 4: Rationale

4.1 Reason for developing this proposed course:

- This proposed course creates a guided learning environment for students to develop language proficiency and cultural knowledge on topics that are meaningful to them and/or useful in their future careers.
- It complements other courses in German and about Germany by focusing on personalizing the learning experience.
- It helps students transfer guided and self-directed work to career applications.
- It fosters the practical life skills of goal-setting, self-discipline and life-long learning.
- It can also support students in preparing for internationally-recognized external assessments of language proficiency for the workplace by targeting the development of specific communication skills.

4.2 Relationship to similar courses offered by other university departments/units:

- Do any other courses already being offered by other university departments/units share content with this proposed course? NO
- Are any of the proposed pre/co-requisites for this course offered by another university department/unit? NO
- If the answer to both questions is NO, simply proceed to item 5.
- If the answer to either of those questions is YES, indicate here who in the affected departments/units was consulted, and the dates of those consultations:

Section 5: Projected Enrollments/Resources

5.1 How many students per section are expected to enroll in this proposed course?

- The expected enrollment for this course is 10 students per offering.

5.2 How many sections of this course per academic year will be offered?

- 1 section per year (or 1 every other year, as needed)

5.3 How many students per academic year are expected to enroll?

- 10 students

5.4 How were these projections calculated? Explain any supporting evidence/data you have for arriving at these projections.

- Things have shifted dramatically for German due to the closing of the major and minor. This is therefore an estimate. Regular lower division offerings will prepare students for this course. This course also serves every student who has the language proficiency to take it and wants to pursue specific academic interests and/or hone his or her language skills for the job market. There are 36 fall 2020 freshmen with 3 or 4 years of German in high school. These students could take the course soon after arriving at WKU. There are 203 fall 2020 freshmen and sophomores who had 1-2 years of high school German and may want to continue in German at WKU. This course will serve as an upper-division German-language elective for the Certificate in German Studies, new in fall 2020.

5.5 Proposed method of staffing:

- The course will be delivered by existing faculty.

5.6 Instructional technology resources: Adequate

5.7 Library resources: Will this proposed course require the use of library resources (books, journals, reference materials, audio-visual materials, electronic databases, etc.)? NO

If YES, was a [Library Resources Form](#) submitted to the appropriate collection development librarian prior to consideration at the college curriculum level?

Section 6: Proposed term for implementation: First available

Section 7: Supplemental/Supporting Documentation: None.

Dates of prior committee approvals:

Modern Languages Department

10/13/2020

Potter College Curriculum Committee

10/27/2020

Undergraduate Curriculum Committee

Faculty Senate

Proposal to Revise a Program: Gender and Women's Studies Minor
Potter College of Arts & Letters
Department/Unit: English

Section 1: Proponent Contact Information

- 1.1 Name/Title: Dawn Hall/English Professor & GWS Program Coordinator
- 1.2 Email address: dawn.hall@wku.edu
- 1.3 Phone #: 270.745.8944

Section 2: Program Information

- 2.1 Current Program reference number: 378
- 2.2 Current Program title: Gender and Women's Studies Minor
- 2.3 Current total number of credits required in the program: 21

Section 3: Proposed program revisions and rationales

- 3.1 Revision: Remove the required concentrations/tracks from the minor.
Rationale: The GWS minor currently has two tracks, Humanities and Social Sciences, and requires students to take six hours in one and nine hours in the other. While the idea of diversifying minors was a good one, in practice the tracks have created confusion, endless iCap exception appeal forms, and numerous hurdles for students attempting the minor. Removing the tracks and simplifying the minor requirements would alleviate these issues.
- 3.2 Revision: Raise credit hours allowed in one department from six to nine.
Rationale: Currently GWS minors can count six hours in any one department toward their minor, but allowing students nine hours (3 classes) in one department creates more flexibility for students and meets the interdisciplinary nature of the minor. Additionally, this change would allow students more flexibility in adding the minor to a variety of degrees: e.g., major, double majors, double minors, certificates.
- 3.3 Revision: Delete electives (see 7.1) that have not been taught in at least three academic years or longer. Many of the courses were created by professors with specific disciplinary expertise who have left the university.
- 3.4 Revision: Add electives (see 7.2) that fit well with the goals of the minor to give students both introductory and, if desired, advanced study in areas within the study of Gender and Women's Studies. These courses either focus explicitly on gender or contain significant emphasis on the topic.

Section 4: Consultations

Do any of the proposed revisions in section 3 above involve or in any other way impact other departments/units? **YES**

All departments offering a course/courses in the new or existing program have been notified of the intended changes. No concerns or opposition have been raised.

Section 5: Proposed term for implementation: Next Available

Section 6: Approval Flow Dates:

English Department	<u>10/07/2020</u>
Potter College Curriculum Committee	<u>10/27/2020</u>
Undergraduate Curriculum Committee	_____
Faculty Senate	_____

Section 7: Required Appendices: Current & proposed program descriptions:

7.1 Current Program Description:

15 hours of electives ~~with concentration (9 hours)~~ in either the social sciences or the humanities, with no more than ~~6~~ **9** ~~elective~~ hours in any one department.

Required Courses	Credits
GWS 200 Introduction to Gender & Women's Studies	3

Proposal to Revise Course Catalog Listing
(Consent Item)**

Contact Person: Huanjing Wang, hungjing.wang@wku.edu, phone#5-2672

1. Identification of course:

1.1 Course prefix (subject area) and number: CS 301

1.2 Course title: Game Programming

2. Current course catalog listing: An introductory study of game software development including game object creation, animation, audio, game logic, and game engines. Design, prototyping, and development of a playable game using modern techniques will be covered. May not be counted toward a computer science major or minor.

3. Proposed course catalog listing: An introductory study of game software development including game object creation, animation, audio, game logic, and game engines. Design, prototyping, and development of a playable game using modern techniques will be covered.
(aim for 25 words or less)

4. Rationale for revision of the course catalog listing: CS students have shown an increasing interest on game programming. It can be counted to major or minor.

5. Proposed term for implementation: As soon as possible

6. Dates of prior committee approvals:

School of Engineering and Applied Sciences

October 2, 2020

Ogden College Curriculum Committee

10/22/20

Undergraduate Curriculum Committee

(Action Item)

**Proposal to Create a New Course: AGRO 459
Ogden College of Science and Engineering
Department of Agriculture & Food Science**

Section 1: Proponent Contact Information

- 1.1 Name/Title:** Becky Gilfillen/Professor of Agriculture & Food Science
- 1.2 Email address:** : becky.gilfillen@wku.edu
- 1.3 Phone #:** 55970 (work) 270-779-8359(cell)

Section 2: Course Catalog Information

- 2.1 Course prefix (subject area) and number:** AGRO 459
- 2.2 Course CIP code:** 01.0000
- 2.3 Course title:** Techniques in Physical Soil Description
- 2.4 Abbreviated Course title:** Tech Physical Soil Descript.
- 2.5 Credit hours/Variable credit:** 3 hours
- 2.6 Repeatability:** N/A
- 2.7 Course Term: Is this course intended to span more than a single term?**
NO
- 2.8 Course Catalog Description:** Field descriptions of soils in the southeastern U.S. based upon observations of several local soil series and their relationship to the online web soil survey. Training is provided for students seeking governmental positions in the soil science discipline.
- 2.9 Prerequisite/Corequisites/Restrictions:** Prerequisite: AGRO 350
- 2.10 Additional Enrollment Requirements:** Restricted to Agriculture & Food Science Majors.
- 2.11 Other Special Course Requirements:** Off campus travel to field sites and a soil judging contest in the southeast region.
- 2.12 Grade Type:** Students will be assigned a standard A-F final grade.
- 2.13 Schedule Type:** Applied Technique

Section 3: Description of proposed course

3.1 Course Content Summary: Determination of soil color, texture, structure, consistency, clay percentage, wetness mottling, landscape position, slope, diagnostic horizons and parent materials. Based upon these factors, students will learn to place soils into taxonomic categories of order, suborder, group, subgroup, and families. These evaluations will then be compared to the web soil survey site prepared by the USDA-NRCS (soils.usda.gov).

3.2 Learning Outcomes:

1. Upon successful completion of this course, students should be able to provide the accurate soil color, texture, structure, consistency, clay percentage, wetness mottling, landscape position, slope, diagnostic horizons and parent materials for soils in the southeast.
2. Upon successful completion of this course, students should be able to place regional soils into the correct taxonomic categories.
3. Upon successful completion of this course, students should be able to compare data collected by them in the field to general soil series information from the web soil survey site and also in the official soil series description.

3.3 Assessment/Evaluation: Students will observe a variety of soil profiles in the state and region. They will be responsible for completing a description sheet for each profile along with pictures & classification of those soils. Participation will be a strong component of the grade. Based on what they learn in the field, they will have two exams will be administered which cover the information from the field work and online soil survey.

Section 4: Rationale

4.1 Reason for developing this proposed course:

This course provides a segue between collegiate learning and training and entering the work force as a Soil Scientist. USDA-NRCS estimates they will be replacing over 50% of their Soil Science staff in the next 5 years.

4.2 Relationship to similar courses offered by other university departments/units:

- Do any other courses already being offered by other university departments/units share content with this proposed course? NO
- Are any of the proposed pre/co-requisites for this course offered by another university department/unit? NO
- If the answer to both questions is NO, simply proceed to item 5.

- If the answer to either of those questions is YES, indicate here who in the affected departments/units was consulted, and the dates of those consultations: If yes above.

- **Section 5: Projected Enrollments/Resources**

5.1 How many students per section are expected to enroll in this proposed course? 10

5.2 How many sections of this course per academic year will be offered? 1 every other year

5.3 How many students per academic year are expected to enroll? 10

5.4 How were these projections calculated? Explain any supporting evidence/data you have for arriving at these projections. Based upon previous course offerings as a special topic.

5.5 Proposed method of staffing: current faculty

5.6 Instructional technology resources: N/A

5.7 Library resources: Will this proposed course require the use of library resources (books, journals, reference materials, audio-visual materials, electronic databases, etc.)? NO

If YES, was a [Library Resources Form](#) submitted to the appropriate collection development librarian prior to consideration at the college curriculum level?

Section 6: Proposed term for implementation: Fall 2021

Section 7: Supplemental/Supporting Documentation:

(Action Item)

Proposal to Create a New Course
OSCE College
School of Engineering and Applied Sciences (SEAS)

Section 1: Proponent Contact Information

- 1.1 Name/Title:** Stacy Wilson, SEAS Director
- 1.2 Email address:** stacy.wilson@wku.edu
- 1.3 Phone #** 56394

Section 2: Course Catalog Information

- 2.1 Course prefix (subject area) and number:** SEAS 175
- 2.2 Course CIP code:** 14.1301
- 2.3 Course title:** Freshmen Experience I
- 2.4 Abbreviated Course title:** Freshmen Experience I
- 2.5 Credit hours/Variable credit:** 1
- 2.6 Repeatability:** N/A
- 2.7 Course Term: Is this course intended to span more than a single term?**
NO
- 2.8 Course Catalog Description:**
For beginning college freshmen or transfer students with fewer than 24 semester hours of credit. Transition to university experience for School of Engineering and Applied Sciences (SEAS) students. Topics include time management skills, critical thinking, exploration of SEAS majors and careers, campus resources, effective teamwork skills, and an introduction to the design process and project management.
- 2.9 Prerequisite/Corequisites/Restrictions:** N/A
- 2.10 Additional Enrollment Requirements:** This course will be restricted to freshmen in the School of Engineering and Applied Sciences.
- 2.11 Other Special Course Requirements:** N/A
- 2.12 Grade Type:** A-F final grade
- 2.13 Schedule Type:** Seminar

Section 3: Description of proposed course

3.1 Course Content Summary:

This course is designed to prepare students to be successful in the School of Engineering and Applied Sciences. This seminar course will engage students to become engaged with the university and their major within SEAS. Students will also learn about the multiple career fields supported by SEAS programs.

3.2 Learning Outcomes:

Upon completion of this course, students should be able to:

- differentiate among the meta-majors in SEAS;
- select the correct choice of major within SEAS for their interests and abilities;
- learn about the many career fields supported by SEAS programs;
- apply teamwork skills;
- describe introductory project management and design techniques;
- apply time management skills;
- use critical thinking skills; and
- identify campus resources to support their academic career.

3.3 Assessment/Evaluation:

Students will be given a variety of assignments to help them become acclimated to WKU and to learn about their field of study. There will be some teamwork assignments to promote community among the students.

Section 4: Rationale

4.1 Reason for developing this proposed course: The School of Engineering and Applied Sciences is home to nine undergraduate programs. The reason this course is being developed is to support the new students in the SEAS programs by developing community and to give the students information about the various SEAS programs to choose which program best fits their academic goals.

4.2 Relationship to similar courses offered by other university departments/units:

- Do any other courses already being offered by other university departments/units share content with this proposed course? NO, There are many freshmen seminar courses taught across campus. This course is specific to SEAS majors.
- Are any of the proposed pre/co-requisites for this course offered by another university department/unit? NO
- If the answer to both questions is NO, simply proceed to item 5.

- If the answer to either of those questions is YES, indicate here who in the affected departments/units was consulted, and the dates of those consultations:

Section 5: Projected Enrollments/Resources

5.1 How many students per section are expected to enroll in this proposed course? The initial offering of this course will be in support of the School of Engineering and Applied Sciences Living Learning Community (LLC) which will have a maximum of 72 students.

5.2 How many sections of this course per academic year will be offered? Initially one section will be offered per year in support of the LLC.

5.3 How many students per academic year are expected to enroll? Initially 72 students

5.4 How were these projections calculated? Explain any supporting evidence/data you have for arriving at these projections. The initial offering of the SEAS LLC will have 72 spots for students.

5.5 Proposed method of staffing: The faculty members that taught the engineering freshmen seminar course (ENGR 175) will teach this course. ENGR 175 was taught in support of the Engineering LLC will be replaced by the SEAS LLC in Fall 2021.

5.6 Instructional technology resources: The instructional technology resources of the unit are sufficient.

5.7 Library resources: NO

Section 6: Proposed term for implementation: Fall 2021

Section 7: Supplemental/Supporting Documentation:

SEAS Curriculum Committee

10/2/2020

OSCE Curriculum Committee

10/22/20

Section 2: Course Catalog Information

- 2.1 Course prefix (subject area) and number:** SEAS 176
- 2.2 Course CIP code:** 14.1301
- 2.3 Course title:** Freshmen Experience II
- 2.4 Abbreviated Course title:** Freshmen Experience II
- 2.5 Credit hours/Variable credit:** 1
- 2.6 Repeatability:** N/A
- 2.7 Course Term: Is this course intended to span more than a single term?**
NO
- 2.8 Course Catalog Description:**
A continuation of SEAS 175. This course will focus on the application of introductory project management and design skills in a teamwork environment.
- 2.9 Prerequisite:**
SEAS 175
- 2.10 Additional Enrollment Requirements:** This course will be restricted to freshmen in the School of Engineering and Applied Sciences.
- 2.11 Other Special Course Requirements:** N/A
- 2.12 Grade Type:** A-F final grade
- 2.13 Schedule Type:** Seminar

Section 3: Description of proposed course

3.1 Course Content Summary:

During this course, students will be placed on teams to complete a series of tasks that culminates in final project and presentation.

3.2 Learning Outcomes:

Upon completion of this course, students should be able to:

- apply teamwork skills;
- apply introductory project management and design techniques;
- apply time management skills;
- use critical thinking skills; and
- present project results in oral and written form.

3.3 Assessment/Evaluation:

Students will be placed on a multidisciplinary team to solve a semester long program which culminates in a final presentation. There will be several assignments during the semester in support of the project to serve as check points for the teams.

Section 4: Rationale

4.1 Reason for developing this proposed course: The School of Engineering and Applied Sciences is home to nine undergraduate programs. The reason this course is being developed is to continue to build community and enhance the topics from SEAS 175.

4.2 Relationship to similar courses offered by other university departments/units:

- Do any other courses already being offered by other university departments/units share content with this proposed course? NO, There are many freshmen seminar courses taught across campus. This course is specific to SEAS majors.
- Are any of the proposed pre/co-requisites for this course offered by another university department/unit? NO

Section 5: Projected Enrollments/Resources

- 5.1 How many students per section are expected to enroll in this proposed course?** The initial offering of this course will be in support of the School of Engineering and Applied Sciences Living Learning Community (LLC) which will have a maximum of 72 students.

- 5.2 How many sections of this course per academic year will be offered?** Initially one section will be offered per year in support of the LLC.

- 5.3 How many students per academic year are expected to enroll?** Initially 72 students

- 5.4 How were these projections calculated? Explain any supporting evidence/data you have for arriving at these projections.** The initial offering of the SEAS LLC will have 72 spots for students.

- 5.5 Proposed method of staffing:** The faculty members that taught the engineering freshmen seminar course (ENGR 175) will teach this course. ENGR 175 was taught in support of the Engineering LLC will be replaced by the SEAS LLC in Fall 2021.

- 5.6 Instructional technology resources:** The instructional technology resources of the unit are sufficient.

- 5.7 Library resources:** NO

Section 6: Proposed term for implementation: Spring 2022

Section 7: Supplemental/Supporting Documentation:

OCSE Curriculum Committee	<u>10/22/20</u>
Undergraduate Curriculum Committee	_____
University Senate	_____

Proposal to Revise a Program: Architectural Science
Ogden College
Department/Unit: School of Engineering and Applied Sciences

Section 1: Proponent Contact Information

- 1.1 Shahnaz Aly, Associate Professor
- 1.2 Email address:Shahnaz.aly@wku.edu
- 1.3 Phone # 270.745.5849

Section 2: Program Information

- 2.1 Current Program reference number: 518
- 2.2 Current Program title: Architectural Science
- 2.3 Current total number of credits required in the program: 78

Section 3: Proposed program revisions and rationales

- 3.1 The Architectural and Manufacturing Sciences department no longer exists since the creation of the School of Engineering and Applied Sciences. The courses with AMS prefixes have been modified to reflect the appropriate discipline (AS, CM, MFGE, or SEAS). The course prefix changes have been submitted in the expedited curriculum process.
- 3.2 Remove requirement of AMS 371 course required in the major. The course as it is currently set up deals with quality from the manufacturing perspective. Aspects of quality are covered in every course in the architectural science program. Faculty in the architectural science program refer to the National CAD standards to apply and educate students on expected drawing standards in their courses and building design, construction methodology standards are referenced from the AIA and applied in technical documentation courses.
- 3.3 Remove 11 hours of Architectural Science Electives. These are being reconfigured into the program.
- 3.4 Add 14 hours of Architectural Science Electives. Electives are selected from areas which enhance students perspectives in topics related to architectural science.

Section 4: Consultations

Do any of the proposed revisions in section 3 above involve or in any other way impact other departments/units? YES

The IDFM department head was contacted on 10/19/2020 about the architectural science elective options.

Section 5: Proposed term for implementation: as soon as possible

Section 6: Approval Flow Dates:

SEAS: **October 2, 2020**
Ogden College Curriculum Committee: **10/22/20**
Undergraduate Curriculum Committee:
University Senate:

Section 7: Required Appendices: Current & proposed program descriptions:

7.1 Current Program Requirement: 78 hours

Architectural Graphics	AMS 151	3

BACHELOR of SCIENCE in ARCHITECTURAL SCIENCES (#518)
 School of Engineering & Applied Sciences
 Ogden College of Science and Engineering
 Western Kentucky University

The suggested program of study shown below should be used in consultation with your advisor(s). Every student will finish with a unique plan of his/her own depending on the electives selected.

SAMPLE - 4 Year Plan

FIRST YEAR	Fall Semester		Spring Semester	
	AS 151 – Architectural Graphics	3	AS 163 – Architectural Drafting	3
AS 180 – Architecture & Civilization	3	CM 261 & 262 – Construction Methods and Materials (with a Lab)	4	
MATH 117 – Trigonometry (F-QR)	3	ENG 200 Intro to Literature (F-AH)	3	
ENG 100 Intro to College Writing (F-W1)	3	Arts and Humanities (E-AH)	3	
HIST 101 World History I OR HIST 102 World History II (F-SB)	3	Natural & Physical Science (E-NS)	3	
TOTAL CREDIT HOURS	15	TOTAL CREDIT HOURS	16	

SECOND YEAR	Fall Semester		Spring Semester	
	AS 251 – 3D Modeling & Imaging	3	AS 273 – Architectural Detailing	3
AS 263 – Architecture Documentation I	3	AS 351- Building Informational Modeling	3	
AS 305 – Building Codes	3	COMM 145 Fundamentals of Public Speaking (F-OC)	3	
ECON 202 – Principles of Economics (E-SB)	3	SEAS 325 – Survey of Building Systems	3	
CM 282 – Architectural Structures	3	AS 369 – Design Studio I	4	
TOTAL CREDIT HOURS	15	TOTAL CREDIT HOURS	16	

World Language Proficiency: All students entering in Fall 2014 or later must demonstrate proficiency in a world language at the Novice High level before completing 60 credit hours. Novice high is the ability to communicate in writing and speaking on familiar topics in simple sentences. To meet this requirement, students may take college language courses or take a proficiency test. For more information go to www.wku.edu/modernlanguages/placement/.

Colonnade Plan: All students entering in fall 2014 or later must complete 39 hours in 13 specific Colonnade areas. Colonnade areas are listed in parentheses marked in blue after the corresponding classes. Some areas may have specific course requirements while others can be chosen from selected lists of options. For more details and to see lists of options, go to http://www.wku.edu/colonnade/documents/approved_colonnade_courses_website.pdf

THIRD YEAR	Fall Semester		Spring Semester	
	AS 363 – Architecture Documentation II	3	SEAS 390 – Project Management	3
CE 303 Construction Management	3	Architectural Science Electives	3	
Architectural Science Electives	3	ENG 300 Writing in the Disciplines (F-W2)	3	
Connections: Social and Cultural (K-SC)	3	General Elective	3	
SEAS 398 - Internship	1	Connections: Local to Global Course (K-LG)	3	
TOTAL CREDIT HOURS	13	TOTAL CREDIT HOURS	15	

FOURTH YEAR	Fall Semester		Spring Semester

BACHELOR OF SCIENCE IN CONSTRUCTION MANAGEMENT (#533) Finish In Four plan (2020-21)

**Proposal to Revise a program: Computer Science
Ogden College
Department/Unit: School of Engineering and Applied Sciences
Section 1: Proponent Contact Information**

- 1.1 Name/Title: Huanjing Wang, Professor
- 1.2 Email address: huanjing.wang@wku.edu
- 1.3 Phone #: 745-2672

Section 2: Program Information

- 2.1 Current Program reference number: 629/629P
- 2.2 Current Program title: Computer Science
- 2.3 Current total number of credits required in the program: 53

Section 3: Proposed program revisions and rationales

- 3.1 Remove one of pre-major requirement CS 331 and change 629P to “To be admitted to the computer science major, students must complete CS 290 or CS 221 with grades of C or better”
This revision will let students enter the major one year earlier since we decide to offer CS 339 once per year. CS 180 is prerequisite of CS 290. So we don’t need to list CS 180. This will help students enter major earlier and improve the retention rate.

Section 4: Consultations: N/A

Do any of the proposed revisions in section 3 above involve or in any other way impact other departments/units? NO

Section 5: Proposed term for implementation: Fall 2021

Section 6: Approval Flow Dates:

School of Engineering and Applied Sciences	<u>2 Oct 2020</u>
Ogden College Curriculum Committee	<u>10/22/20</u>
Undergraduate Curriculum Committee	_____
University Senate	_____

Section 7: Required Appendices: Current & proposed program descriptions:
7.1 Current program requirement:

The major in computer science requires a minimum of **53** semester hours. To be admitted to the computer science major, students must complete **CS 180, CS 290, and CS 331** with grades of C or better. In addition, all CS courses counting toward the CS program major must be completed with a grade of "C" or better. Computer Science electives may include from 0-3 hours of 200-level courses. Students must adhere to all University Policies as indicated in the WKU catalog section "Academic Information." Additional requirements are as follows:

Systems/Scientific Applications Concentration

Requirements:

CS 180 Computer Science I	4
CS 290 Computer Science II	4
CS 331 Computer Science III	3
CS 325 Computer Organization and Architecture	3
CS 339 Discrete Structures	3
CS 351 Database Management Systems I	3
CS 360 Software Engineering	3
CS 382 Programming Languages	3
CS 396 Intermediate Software Project	3
CS 421 Data Structures and Algorithm Analysis	3
CS 425 Operating Systems I	3
CS 496 Senior Project and Professional Practice	3
CS Elective*	3

At most 1.5 hours of credit for CS 239 may count towards the major. At most 3 hours of credit for CS 239 and 245 (only for languages for which credit is not received through another course) may count towards the major.	

7.2 Proposed program requirement:

The major in computer science requires a minimum of **53** semester hours. To be admitted to the computer science major, students must complete **CS 290 or CS 221** with grades of C or better. In addition, all CS courses counting toward the CS program major must be completed with a grade of "C" or better. Computer Science electives may include from 0-3 hours of 200-level courses. Students must adhere to all University Policies as indicated in the WKU catalog section "Academic Information." Additional requirements are as follows:

Systems/Scientific Applications Concentration

BACHELOR OF SCIENCE in CS – SYSTEMS (#629) Finish in Four plan (2018-19)

Proposal to Revise a Program: Engineering Technology Management
Ogden College of Science and Engineering
Department/Unit: School of Engineering and Applied Sciences

Section 1: Proponent Contact Information

- 1.1 Stacy Wilson
- 1.2 Email address: stacy.wilson@wku.edu
- 1.3 Phone # 270.745.6394

Section 2: Program Information

- 2.1 Current Program reference number: 5007
- 2.2 Current Program title: Engineering Technology Management
- 2.3 Current total number of credits required in the program: 63

Section 3: Proposed program revisions and rationales

- 3.1 The Architectural and Manufacturing Sciences department no longer exists since the creation of the School of Engineering and Applied Sciences. The courses with AMS prefixes have been modified to reflect the appropriate discipline (AS, CM, MFGE, or SEAS). The course prefix changes have been submitted in the expedited curriculum process.

Section 4: Consultations

Do any of the proposed revisions in section 3 above involve or in any other way impact other departments/units? No

Section 5: Proposed term for implementation: Fall 2021

Section 6: Approval Flow Dates:

SEAS: **2 Oct 2020**
Ogden College Curriculum Committee: **10/22/20**
Undergraduate Curriculum Committee:
University Senate:

Section 7: Required Appendices: Current & proposed program descriptions:

7.1 Current Program Requirement: 63 hours

100/200 level of approved courses transferred from a technical school, college, or university		24
Industrial Statistics (Statistics)	AMS 271	3
Senior Research	AMS 490E	3
Manufacturing Operations	AMS 342	3
Safety and Ergonomics	AMS 310	3
Systems Design and Operation (Operations Management)	AMS 356	3
Project Management	AMS 390	3
Technology Mgmt./Sup./Team Blding	AMS 430	3
Quality Assurance	AMS 371	3
Lean and Supply Chain Systems	AMS 394	3
Upper Division Approved Technical Electives		12
Additional Required Course:		
College Algebra	MATH 116 or higher	3
Program Grand Total Hours:		120

7.2 Proposed Program Requirement: 63 hours

100/200 level of approved courses transferred from a technical school, college, or university		24
Industrial Statistics (Statistics)	MFGE 271	3
Senior Research	MFGE 490 B	3
Manufacturing Operations	MFGE 342	3
Safety and Ergonomics	MFGE 310	3
Systems Design and Operation (Operations Management)	MFGE 356	3
Project Management	SEAS 390	3
Technology Mgmt./Sup./Team Blding	MFGE 430	3
Quality Assurance	MFGE-371	3
Lean and Supply Chain Systems	MFGE 394	3
Upper Division Approved Technical Electives		12
Additional Required Course:		
College Algebra	MATH 116	3
Program Grand Total Hours:		120

	BACHELOR of SCIENCE in ENGINEERING TECHNOLOGY MANAGEMENT (5007) School of Engineering and Applied Sciences Ogden College of Science and Engineering Western Kentucky University	
	The suggested program of study shown below should be used in consultation with your advisor(s). Every student will finish with a unique plan of his/her own depending on the electives selected. Admission to the major is required to register for all 300 and 400 nursing classes. All upper-division nursing courses must be taken in sequence to meet NURS course prerequisite requirements.	

SAMPLE – Finish in Four Plan

Email: seas@wku.edu

Course Descriptions: <https://www.wku.edu/undergraduate/catalog/>

BACHELOR OF SCIENCE in MANUFACTURING ENGINEERING TECHNOLOGY (#5006) Finish in Four plan (2021-2022)

**Gordon Ford College of Business
Department Name Management
Proposal to Delete a Program
(Consent Item)**

Contact Person: Whitney Peake, Chair
Email: whitney.peake@wku.edu
Phone: 270-551-2251

1. Identification of program:

- 1.1 Program reference number: 52.0701.4931
- 1.2 Program title: Entrepreneurship
- 1.3 Credit hours: 70

2. Rationale for the program deletion:

The major currently has 17 admitted students and 46 students seeking admission. As such, this is a very small major compared to the faculty resources it demands for its continuance. With the deletion of the major and a move to the concentration format as part of the Management major, there are substantial cost savings and efficiencies to the department.

3. Effect on current students or other departments, if known:

The chair has consulted with the GFCB Coordinator for undergraduate student services, Dr. Pat Jordan in deleting the program to ensure there would not be negative impacts on current students. While the major will be deleted, we also propose entrepreneurship as a program revision to the Management major. The required courses are still offered under the concentration format, and will allow a seamless teach-out, with any substitution of electives allowed to ensure on-time graduation.

Currently any program offering a required course for the major is still listed as a required course for the concentration, so there is no known effect on other departments.

4. Proposed term for implementation: Fall 2021

5. Dates of prior committee approvals:

Department/ Unit Management	<u>09/30/2020</u>
GFCB College Curriculum Committee	<u>10/21/2020</u>
Professional Education Council (if applicable)	_____
Undergraduate Curriculum Committee	_____
University Senate	_____

**Gordon Ford College of Business
Department Name Management
Proposal to Delete a Program
(Consent Item)**

Contact Person: Whitney Peake, Chair
Email: whitney.peake@wku.edu
Phone: 270-551-2251

1. Identification of program:

- 1.1 Program reference number: 52.01101.4935
- 1.2 Program title: International Business
- 1.3 Credit hours: 73

2. Rationale for the program deletion:

The major currently has 26 admitted students and 39 students seeking admission. As such, this is a very small major compared to the faculty resources it demands for its continuance. With the deletion of the major and a move to the concentration format as part of the Management major, there are substantial cost savings and efficiencies to the department.

3. Effect on current students or other departments, if known:

The chair has consulted with the GFCB Coordinator for undergraduate student services, Dr. Pat Jordan in deleting the program to ensure there would not be negative impacts on current students. While the major will be deleted, we also propose global business as a program revision (concentration) to the Management major. The most important required courses are still offered under the concentration format, and will allow a seamless teach-out, with any substitution of electives allowed to ensure on-time graduation.

Currently any program offering a required course for the major is still listed as a required course for the concentration. The language components and specific concentrations under the major offered very small enrollments; however, all departments involved in their delivery have been contacted regarding the change.

4. Proposed term for implementation: Fall 2021

5. Dates of prior committee approvals:

Department/ Unit Management	<u>09/30/2020</u>
GFCB College Curriculum Committee	<u>10/21/2020</u>
Professional Education Council (if applicable)	_____
Undergraduate Curriculum Committee	_____

University Senate

**Proposal to Revise a program:
Gordon Ford College of Business
Department/Unit: Management**

Section 1: Proponent Contact Information

- 1.1 Name/Title: Whitney Peake, Chair
- 1.2 Email address: Whitney.Peake@wku.edu
- 1.3 Phone # 270-551-2251

Section 2: Program Information

- 2.1 Current Program reference number: 52.0201.4925
- 2.2 Current Program title: Management
- 2.3 Current total number of credits required in the program: 73

Section 3: Proposed program revisions and rationales

3.1 First proposed revision: Add an Entrepreneurship Concentration to the BS in Management. Entrepreneurship is currently a standalone major and there are not currently sufficient instructional resources to offer it as a standalone major. This will allow students to get a largely equivalent experience in terms of management and entrepreneurship courses, as well as the specialized finance and marketing courses. Primary changes also include the incorporation of a basic human resources and organizational behavior classes as part of the major core, which are also important to entrepreneurship students. This change creates flexibility for students in lowering switching costs from one concentration to another within Management, and creates costs savings and instructional efficiencies across the department.

3.2 Second proposed revision: Add a Global Business Concentration to the BS in Management. International Business has been a small, standalone major, and there are not currently sufficient instructional resources to offer it as a standalone major. This will allow students to get a largely equivalent experience in terms of management, cultural and international courses. Primary changes also include the incorporation of a basic human resources and organizational behavior classes as part of the major core, which are also important to students interested in global business. This change creates flexibility for students in lowering switching costs from one concentration to another within Management, and creates costs savings and instructional efficiencies across the department.

3.3 Third proposed revision: Remove MATH 119 as an alternative to MGT 305 (Critical Thinking in Management). MATH 119 is no longer offered.

Section 4: Consultations

Do any of the proposed revisions in section 3 above involve or in any other way impact other departments/units? YES NO

If YES, identify those revisions here, referring to them by the numbers assigned in section 3 above, and for each, indicate who in the affected department/unit was consulted, and the date of that consultation:

- Business Data Analytics (3.2) Dr. Ray Blankenship, 10/6/2020
- Economics Department (3.2) Dr. Alex Lebedinsky 10/8/2020
- Finance Department (3.1, 3.2) Dr. Indu Chhachhi, 9/29/2020 & 10/6/2020

Marketing Department (3.1) Dr. Lukas Forbes 10/6/2020
Communications (3.2) Dr. Helen Sterk 10/6/2020
Architecture and Manufacturing Sciences (3.2) Dr. Stacy Wilson 10/6/2020
Geography (3.2) Dr. Fred Siewers 10/6/2020
Leadership (3.2) Dr. Marguerita DeSander 10/6/2020
Modern Languages Department (3.2) Dr. Alex Poole 10/6/2020
Political Science (3.2) Dr. Scott Lasley 10/6/2020
Sociology (3.2) Dr. Holli Drummond 10/6/2020

Section 5: Proposed term for implementation: Fall 2021

**Proposal to Revise a program:
Gordon Ford College of Business
Department/Unit: Management**

Section 1: Proponent Contact Information

- 1.1 Name/Title: Whitney Peake, Chair
- 1.2 Email address: Whitney.Peake@wku.edu
- 1.3 Phone # 270-745- 3531

Section 2: Program Information

- 2.1 Current Program reference number: 52.0201.4325
- 2.2 Current Program title: Management – Human Resource Concentration
- 2.3 Current total number of credits required in the program: 73

Section 3: Proposed program revisions and rationales

3.1 First proposed revision: Add MGT 405 (Business Negotiation) to the list of approved electives for the HR concentration. HR students have been taking this course as an elective for several years and report that the topics covered provide students with skills and knowledge they will use on the job as HR professionals. In addition, this will reduce the number of overrides processed by the department chair and advisors.

3.2 Second proposed revision: Add MGT 413 (International Human Resource Management) to the list of approved electives for the HR concentration. HR students have been taking this course as an elective for several years and report that the topics covered provide students with skills and knowledge they will use on the job as HR professionals. In addition, this will reduce the number of overrides processed by the department chair and advisors.

3.3 Third proposed revision: Remove MGT 313 (Decision Modeling) and replace with MGT 383 (HRIS). This is another course that has been offered for 5 years and has been well received by students. MGT 383 is a course that focuses on the technology and analytics that HR students will need after they enter the HR profession. This change will also greatly reduce the number of overrides processed by the department chair and advisors.

3.4 Fourth proposed revision: Remove ECON 305 (Labor Economics) and replace with MGT 400 (Employment Law). This change is requested to better align our HR program with the curriculum guidelines established by the Society of Human Resource Management. The new guidelines emphasize the need for a firm foundation in employment law which will be provided by requiring MGT 400 as part of the program.

Section 4: Consultations

Do any of the proposed revisions in section 3 above involve or in any other way impact other departments/units? YES NO

If NO, simply proceed to item 5.

If YES, identify those revisions here, referring to them by the numbers assigned in section 3 above, and for each, indicate who in the affected department/unit was consulted, and the date of that consultation:

Economics Department (3.4) Alex Lebedinsky 10/8/2020

Section 5: Proposed term for implementation: Fall 2021

Section 6: Approval Flow Dates:

Proposing department/unit: 9/30/2020
