Programs

Grubbs asked Autin: Since minimum grades are required for prerequisites, would proposals to reflect that be expedited? Hammonds said that the online system was programmed to use a minimum score of D when a different minimum grade was not specified. Autin said that you only need to worry about it going forward if you're making other changes to a course.

Subcommittees:

Steering Committee Report

Is anyone willing to chair this group? By-laws are good, but the guidelines need to be updated. Paganelli & Flener are willing to be on it, but they don't want to chair. Autin will send out an email later.

Academic Policy Report

Flener is the chair, and she is waiting on wording from the registrar.
